

CALL FOR CANDIDATES 2015

ICS project name: Navarra Center for International Development

<http://ncid.unav.es/>

Project description: We are an interdisciplinary team of economists, political scientists, sociologists and more that strive to alleviate extreme poverty in the world's poorest countries. We focus on three interrelated themes: technology transfer, migration, and institutional development as ways to exit extreme poverty.

We conduct case studies on a country or region where a policy has successfully helped a population exit poverty, and then see if that policy can be reapplied, adapting for local circumstances, to other poor countries. Through applied research, we intend to generate ideas to solve chronic social problem associated with poverty.
