

Asignatura: Creatividad (F. Económicas)

Guía Docente

Curso académico: 2018-19

Sobre la asignatura

<http://www.unav.edu/asignatura/creatividadeconom/>

Creatividad

“El tiempo, si lo piensas, se hace lento” Josep María Esquirol

Una asignatura, un viaje, un objetivo: descubrir el talento creativo que habita en ti... y ponerlo a trabajar.

Con la Economía Creativa y el nuevo marco del Societing como hilo conductor, durante siete viernes viajaremos por el asombroso mundo de la creatividad, esa que Sir Ken Robinson define como “el proceso de generar nuevas ideas que aporten valor”.

Durante este tiempo, buscaremos: dentro y fuera de ti, en ese lugar donde la mirada invita a observar el mundo desde múltiples perspectivas y preguntarnos: ¿... Qué pasaría si...?

El programa de 2019 incluye un reto creativo relacionado con el tiempo. En sus tres dimensiones - el tiempo cronológico, cronométrico y atmosférico-, el tiempo será el motor de una búsqueda que busca mostrar el potencial de la creatividad al servicio de las personas, las organizaciones, nuestra sociedad.

La asignatura, de carácter teórico -práctico, incluye pequeñas sesiones conceptuales que buscan alimentar el reto creativo al que nos enfrentamos y responder a preguntas tales como: ¿Qué papel tiene la creatividad en el mundo actual? ¿Cómo puedo conocer y cultivar mi lado más creativo? ¿Qué retos creativos plantean el mundo, las organizaciones y la vida actuales?

Competencias

La asignatura de creatividad busca desarrollar una nueva narrativa personal que despliegue competencias conocidas pero también posibilite el descubrimiento y potenciación de otras nuevas.

Para enfrentar el reto de la asignatura con éxito y disfrutar del viaje, hay una serie de competencias a desarrollar, que son:

1. Pensamiento analítico y conceptual: capacidad de abordar la complejidad y observarla desde distintos puntos de vista.
2. Flexibilidad: autoconfianza para trabajar a nivel personal y en equipo.
3. Iniciativa: orientación al logro, capacidad para identificar un problema de contexto y aportar una solución creativa viable.
4. Comprensión interpersonal: escucha atenta, trabajo en equipo, capacidad de liderar procesos creativos.
5. Gestión: del equipo, de los tiempos, del proceso.

Creatividad

Programa

Sesión 01 - 11 de enero 2019

La Economía Creativa

"Si quieres que la innovación sea interesante, el juego que has de jugar es menos seguro. No se puede decir de antemano que vaya a salir bien". George Stigler

En esta primera sesión analizaremos el paso de la Era del Conocimiento a la Era Conceptual, con todos los cambios en el sistema consumo que esto ha traído. De la mano de Daniel H.Pink analizaremos seis destrezas creativas muy importantes para este nuevo tiempo, como son el diseño, la narración, la sinfonía, la empatía, el juego y la capacidad de crear sentido y nos adentraremos en "El tiempo tecnológico" al que dedicaremos nuestro reto de 2019.

Sesión 02 - 18 enero 2019

Nuevos tiempos para un nuevo mundo

"Creo que uno de los errores de nuestra economía actual pasa por la simplicidad con la que la medimos". Tim Brown, CEO de IDEO

A partir de un caso práctico en clase descubriremos la necesidad de medir diferente y nos preguntaremos: ¿cuáles son y/o pueden ser los parámetros para medir correctamente este nuevo tiempo? Con la innovación disruptiva como telón de fondo, descubriremos qué tienen en común las organizaciones creativas del siglo XXI.

Sesión 03- 25 enero 2019

La personalidad creativa

"Teníamos toda una visión que ganar y nada que perder"

¿Qué significa ser creativo? Nuestra tercera parada comienza **CON** un ejercicio **EN** forma de ladrillo y una misión: Descubrir **las** mejores definiciones de creatividad y bucear por algunos de los mitos que **la** rodean. ¿Creativo se nace, o se hace? ¿Qué relación **hay** entre **el** tiempo y **la** calidad de nuestra dedicación?

Sesión 04 - 01 febrero 2019

Nuestras cosas y nosotros

"Do you define the things in your life or they define you?"

París, 1914. Picasso y Gertrude Stein regresan a casa tras una cena. En la calle, un convoy militar camuflado da pie a una conversación: "Gertrude, ¡eso es cubismo! ¡Y lo hemos hecho nosotros! En esta sesión analizaremos la fusión entre función, forma, ética y estética de los productos que consumimos, viajaremos a través de los movimientos de vanguardia de principios del siglo XX y trataremos de aplicar técnicas creativas para re-pensar productos y servicios.

Sesión 05 : 08 febrero 2019

El impacto de la tecnología en el tiempo

"Hazlo o no lo hagas, pero no lo intentes" Yoda

El peso que da ligereza, la mirada atrás que nos ayuda a seguir adelante, los tiempos d+espacio que nos ayudan a avanzar, nosotros y los otros o la destrucción como elemento de la construcción serán algunos de los temas que trataremos en una sesión interactiva que busca ofrecer ideas, herramientas y técnicas que nos ayuden a navegar creativamente los mares del tiempo que nos tocó vivir.

Sesión 06: 15 febrero 2019

Aplicación Reto creativo

Sesión con Helena Sola destinada conceptualizar el reto creativo.

Sesión 07: 27 febrero 2019

Presentación proyectos y cierre asignatura

Actividades formativas

Edite el contenido aquí

Evaluación

La evaluación de esta asignatura está basada en los siguientes parámetros:

1. Atención y participación frente a las materias que tratamos cada semana.
2. Presentación de reto final de asignatura.

Incluye:

2.1. - Implicación: nivel de trabajo y esfuerzo desarrollado a lo largo de cada reto semanal y plasmado en el proyecto.

2.2. - Originalidad: planteamiento del reto y solución.

2.3 - Profundidad: nivel de complejidad de la solución aportada.

2.4- Conexión: entre la propia vida y los conceptos tratados en clase, así como ideas aparentemente inconexas que encuentran un hilo conductor a partir de una mirada.

2.5- Colaboración: capacidad de desarrollar un proyecto creativo en equipo.

Bibliografía y recursos

2019 - Después de la sesión del viernes pasado (maravillosa, gracias), aquí os adjunto fuentes para seguir profundizando:

1. En busca de un punto de vista múltiple sobre la tecnología que incluya también su potencial, aquí este TED sobre el peligro del punto de vista único:

https://www.ted.com/talks/chimamanda_adichie_the_danger_of_a_single_story?language=es

2. También en TED, informaciones extra para poder profundizar en la cuestión del tiempo:

<https://www.ted.com/search?q=time+>

Para los que ya estáis prototipando:

<https://www.ideou.com/blogs/heygotaminute/how-do-you-move-from-an-idea-to-a-prototype>

<http://www.designkit.org/methods/26>

Recordad que el producto / servicio que vais a presentar debe ser posible. Copio, para vosotros, del maravilloso libro "Design your life":

"Los buenos diseñadores aceptan la realidad. Y es así como empiezan donde están. No donde desearían estar. No donde su esperanza les lleva. No donde piensan que deberían estar. Aquí. Ahora mismo".

En este sentido, menos es más: imaginación al poder y mucha atención a todo el mundo de posibilidades ya existentes en el campus. Sea cual sea vuestra idea, debe ajustarse a la realidad, ser viable en el corto plazo y celebrar la posibilidad. Nothing is everything ;)

Guía Docente

Curso académico: 2018-19

Presentación

<http://www.unav.edu/asignatura/finacialaccounting1b/>

Financial Accounting I B (F. Económicas)

2018/2019 - ECOb + ECObG

The aim of the Financial Accounting I course is to build a strong foundation for learning about financial reporting and corporate finance. Accounting is the language of business and we will work hard to learn that language, so that students can understand financial documents, stories and presentations. Students will recognise how accounting affects our perception of value creation and management performance. Students will gain the skills to predict the financial consequences of management decisions and market forces in a business setting..

The course covers the key terms and concepts of accounting as defined by the International Financial Reporting Standards, the construction of financial statements, and the methods of recording transactions. Upon completion of the course, students should be able to explain accounting terms, interpret amounts found in financial statements, and predict the consequences of various transactions on the financial results and the financial standing of a company.

The detailed goals of the course are:

1. describe the context and purpose of accounting financial reporting,
2. describe the legal framework for accounting and financial reporting,
3. describe the fundamental bases of accounting,
4. describe and use the double-entry accounting system,
5. record various transactions and events associated with day-to-day business,
6. prepare a trial balance, identify and correct accounting errors,
7. prepare simple financial statements for small and medium companies,
8. interpret amounts in the financial statements.

Course materials are available on Google Drive (follow the link in "AREA INTERNA")

Competencias

Basic Competencies (Management and Economics)

BC1. Students should demonstrate knowledge and understanding of the subject area based on a general secondary school education. They should have a general level that is well supported by advanced texts, but that also encompasses aspects that suggest knowledge of the leading edge of their field of study.

BC2. Students should be able to apply their knowledge to their job or vocation in a professional way. They should be able to prove their general competencies by developing and defending arguments and solving problems within their subject area.

BC5. Students should have developed the learning skills necessary to undertake higher programs of study with greater independence.

General Competencies (Management and Economics)

GC2. Identifying, incorporating and using acquired knowledge in argument, discussion and problem solving as they apply to economics and business.

Specific Competencies (Economics)

SC14. Understanding the theory and practice of business operations.

Specific Competencies (Management)

SC1. Possessing a thorough knowledge of the General Accounting Plan as well as accounting and finance theory.

SC3. Analyzing a business's real-life accounting and finance situation and making projections about its future.

Programa

Week	Dates	Topic	Readings
1	3-7 Sept.	Introduction to accounting	Ch. 1
2	10-14 Sept.	Fundamental concepts	Ch. 2
3	17-21 Sept.	The accounting process	Ch. 3
4	24-28 Sept.	Practice: The accounting simulation game	Midterm on Sept. 27/28
5	1-5 Oct.	Accounting for commercial and manufacturing	Ch. 4

		companies	
6	8-12 Oct.	Using accounting to forecast business performance	Ch. 4
7	15-19 Oct.	Accounting regulation around the World	Ch. 5 Assignment due on Oct. 20th
8	22-26 Oct.	Revenue recognition, cash and receivables	Ch. 7 (Ch. 18)
9	29 Oct. - 2 Nov.	Accounting for inventory	Ch. 8
10	5-9 Nov.	Profit and shareholders' equity	Cases (Ch. 15)
11	12-16 Nov.	Reading financial statements to learn about business	Cases (Ch. 1-8)
12	19-23 Nov.	Forecasting business performance using financial statements	Cases (Ch. 1- 8)
13	26 - 30 Nov.	Exercises and review	(Ch. 1-8)
Exams	1 8 December	FINAL EXAM	

Actividades formativas

There is quite a lot of technical material in the course and some of it is tricky. Explanation and illustration of that material using lectures, cases and problem assignments forms the core of the course. The reading and problem assignments for each session will be available in Adi with enough time for preparation.

In order to make the most of this course, I suggest the following routine:

- Before class: Read the relevant chapters in the main textbook.
- In class: Take notes, actively participate in class discussion, take notes, and ask questions.
- After class: Review the topics, read the book again, and work on the practice exercises and homework.

Evaluación

The assignments will be posted on the course website. The assignments must be completed and submitted in due time (TBA for each assignment). Early submission is strongly encouraged.

Components of evaluation:

1. Activities in the classroom: 10% (tasks, quizzes)

2. Activities assigned for homework: 20% (business analysis and forecasting)
3. Midterm exam: 20% (includes a simulation game and transaction recording)
4. Final exam: 50% (concepts (multiple choice), preparing financial statements, end-of-year adjustments, business analysis)

To get a “pass”, students taking the class must a) achieve a grade of 50% or higher in the final exam; and b) achieve a grade of at least 50% in the total course grades.

Bibliografía y recursos

Course materials are available on Google Drive.

The main course-books:

1. One book for Financial Accounting I and Financial Accounting II: *Intermediate Accounting (IFRS edition)* by Kieso, Weygandt, Warfield, Wiley & Sons, 2014. [eBook available](#), [Find it in the Library](#)
2. *Financial Accounting and Reporting: A Global Perspective* by H. Stolowy, M. Lebas and Y. Ding, Cengage Learning, Andover, UK, 5th edition, 2017. There is an eBook [available online](#). Earlier editions are OK, but there may be slight differences (especially chapter 6 on revenue recognition). [Find it in the Library](#) (ed. 2017) [Find it in the Library](#) (4th edition, 2013)
3. *Financial Accounting "A Concepts-Based Introduction"* by D. Kolitz, Routledge, 2016. [Publisher website](#) [Find it in the Library](#)

Additional reading:

- International Financial Reporting Standards (online from ifrs.org, the [European Commission](#), or in a [book edition](#)).
- Scholarly articles and media material provided during classes

2. Subject Info

2. Subject Information

Subject description:

This course aims to provide the first year students a sound introduction to the use of mathematics in business and personal finance applications.

After attending this course, the student should be able to: (1) Set out and solve problems and real cases involving concepts of simple interest, compound interest and annuities; (2) Know the financial vocabulary.

Taking this course will help students acquire the following competences and skills: (1) Improve logical reasoning; (2) Improve analytical and synthesis skills; (3) Improve autonomous learning skills; (3) Improve work-time organization; (4) Improve work-team abilities.

Emphasized learning outcomes from the study of this module are: (1) Be able to solve problems with the concepts of simple and compound interest and annuities; (2) Be able to apply these concepts to real life situations such as home-loans, bonds and capital budgeting decisions.

Subject objectives:

In accordance with the ANECA Memorandum of Approved Studies (la memoria de título verificada), this subject is designed so that students achieve the Basic & General Competencies (in Management and Economics) and the Specific Competencies (in Management), particularly the area of Finance. The following is a summary of the content of these Competencies:

Basic and General Competences:

- Logical reasoning skills.
- Capacity of analysis and synthesis.
- Skills for autonomous learning.
- Skills of task planning and time management.
- Ability to work in teams.

- Sense of responsibility in work and dedication to tasks.
- Public speaking and presentation skills in English.
- Ability to critique others and self-criticism.
- Punctuality and good work ethic.
- Leadership and innovation skills.

Specific Competences:

- To know the most relevant aspects of financial products, time-value of money, and investment projects.
- To develop learning through case studies.

Student learning outcomes:

From the study of this module, students should:

- Be able to solve problems with the concepts of simple and compound interest and annuities.
- Be able to measure the return of an asset according to various measures.
- Be able to apply these concepts to real life situations such as simple stock valuations, bonds, and home-loans.
- Be able to use Microsoft Excel to solve problems involving the valuations of future cash flows.

Teaching methodologies:

The teaching of this subject combines theoretical lectures and practical classes, which include the tutorial and case work classes. In order to prepare the theoretical classes, students will have to read in advance the mandatory readings.

For the practical classes, students will have to prepare the problem sets at home before class starts. In addition, they will have to do the reports and hand them in on time. Both the detailed schedule of the course and all case material are available on ADI.

2a. Competences

Basic Competencies (Management and Economics)

BC2. Students should be able to apply their knowledge to their job or vocation in a professional way. They should be able to prove their general competencies by developing and defending arguments and solving problems within their subject area.

BC5. Students should have developed the learning skills necessary to undertake higher programs of study with greater independence.

General Competencies (Management and Economics)

GC3. Mastering the digital, mathematical and technical tools necessary for academic and professional activity in economics and business.

GC4. Teamwork.

GC7. Knowing the different settings in which work is done: circumstances and markets, as well as historic, legal and humanistic contexts.

Specific Competencies (Economics)

SC4. Knowing and soundly handling the fundamental concepts of and methods of finance.

Specific Competencies (Management)

SC10. Incorporating mathematical reasoning and quantitative tools in a business's decision-making processes.

3. Subject Outline

Subject Outline

This subject is made up of 60 hours of class time, which is equivalent to 60 ECTS. Students are expected to dedicate the same amount of personal time to study, preparation of the drill and problem sets and case work as the hours of class time. The approximate class time allocation given to the different topics are given below. The personal study time and work in groups and assignments are suggested times. Students should allocate their time according to their personal needs. At the start of the semester, a more detailed outline of what will be taught and when will be provided and students are expected to use this to prepare accordingly before coming to each class.

Topic 1: Introduction to Finance and Time Value of Money

1. Introduction to Finance

2. Concept of Time Value of Money
3. Problem of Finance Jargon
4. Self-learning Microsoft Excel and calculator skills

Theoretical classes	2 hours	Practical classes/ exam	0 hours
Personal study required	1 hours	Assignment/ group work	0 hours

Topic 2: Time value of money: Single cash flows

1. "interest on principal cash flow" perspective
2. "discount on final cash flow" perspective
3. "effective interest" perspective
4. Use of Excel to value single cash flows

Theoretical classes	4 hours	Practical classes/ exam	4 hours
Personal study required	10 hours	Assignment/ group work	0 hours

Topic 3: Time value of Money: Multiple cash flows

1. Valuation of Cash Flows (*a finite number of different cash flows*)
2. Valuation of Annuities (*a finite number of level cash flows*)
3. Valuation of Perpetuities (*an infinite number of level cash flows*)
4. Use of Excel to value a stream of cash flows

Theoretical classes	5 hours	Practical classes/ exam	3 hours
Personal study required	9 hours	Assignment/ group work	0 hours

Topic 4: Measuring asset performance

1. Types of asset performance measures
2. Rates of Return
3. Dollar Returns (dollar value)

4. Use of Excel to measure asset performance

Theoretical classes	6 hours	Practical classes/ exam	6 hours
Personal study required	10 hours	Assignment/ group work	1 hours

Topic 5: Applications in Finance

1. Stocks
2. Bonds
3. Mortgages
4. Use of Excel to in each of these applications

Theoretical classes	11 hours	Practical classes/ exam	17 hours
Personal study required	20 hours	Assignment/ group work	6 hours

Self-Learning Microsoft Excel

Microsoft Excel is a standard spreadsheet program that is probably the most widely used calculation software in the world of finance, economics, and accounting. You simply cannot do without learning this software! By the time you finish university, you should have reached intermediate to advanced levels of skills in Excel.

However, in this subject, students will not receive specific lessons on Excel apart from a few tips here and there. Like most professionals who learned Excel from learning-by-doing, we will follow this same pattern of learning: students are expected to learn how to use Microsoft Excel themselves by doing the simple exercises that are set for each of the topics. The subject textbook by Biehler will be helpful in your self-learning. The Excel functions required to these exercises may be in your examinations.

It does not matter which version of Excel use as the basic functions used in this subject are available in versions early as Excel 2003. You may learn to use Excel in Spanish or in English, although it is recommendable that you learn the basic functions in both languages. Since Excel is itself a language, it will be helpful when you need to communicate with others in either language.

4. Assessment

4. Assessment / Grading System

As with all subjects, students will receive a final grade out of 10 that consists of 100% of the assessments. The schedule for Final Exams can be found on the School webpage [here](#).

December Announcement (Total: 100%):

Mini Exam:	5% (Topics 1 & 2)
Mid-term Exam:	20% (Topics 1, 2 & 3)
Final Exam:	30% (All topics)
Excel Exam:	5% (Description below)
Class Preparation:	15% (Description below)
Class Participation:	10% (Description below)
Case Group Video:	15% (Description below)

IMPORTANT NOTE: To pass this subject, you must first get a minimum of 4 out of 10 in the Final Exam before any of the other assessments are counted. If you get less than 4 in the Final Exam, then that will be your December grade and you will have to take the June exam. If you get more than 4 in the Final Exam, your combined grade of the December Exam and other assessments must be at least 5 out of 10 to pass the subject.

Dates of Assessments:

Quiz/Mini Exam: 3 October-	Group A: 8 October (in class, 1 hour); Group B:
Mid-term Exam: B: 24 October-	Group A: 23 October (in class, 2 hours); Group
Excel Exam: minutes, 16:30 to 18:00)-	8 November Wednesday 7 November (25

Case Group Video: 27 November for both groups.-
Final Exam: Tuesday 4 December 2018, 9-12h (Aula 15,16)

June Announcement (Total: 100%):

June Exam: 40% (Monday 10 June 2019, 9-12h, Aula 12)
Other assessments: 60%

Like the December announcement, to pass the subject you must first get a minimum of 4 out of 10 in the June Exam before Other Assessments will be counted. After that, your combined grade of the June Exam and Other Assessments must be at least 5 out of 10 to pass the subject. Other Assessments include Mini-exam, Mid-term exam, Excel Exam, Class Preparation, Class participation, and Case Group video.

IMPORTANT NOTE: The June exam is worth 40% while the December exam is worth 30%, which means you need to work harder to pass the subject in June. This is done deliberately so you think twice before choosing June.

Students Repeating the Subject:

If you are repeating this subject, you do not have to do the Case Group Video. For the December Announcement, your December Final Exam will be worth 45% (30%+15%). All other assessments are required, which means preparing each lesson, coming to class, and participating like everyone else. If you do not pass in December then for the June Announcement, the June Final Exam will be worth 40% and the other assessments (mini-exam, mid-term exam, class preparation and participation) will be worth 60%. This means it is better for you to pass the subject in December since a December final exam is worth more than a June final exam.

Class Attendance:

Class attendance is your responsibility. I will not take class attendance. Punctual class attendance is required. I will begin classes strictly on time. If you are not in the classroom at the start of the hour, please do *not* come. I aim to make the classes

interesting and worth your time to attend. But if you don't want to come or cannot come for whatever reason, I am not going to hold it against you.

Although class attendance is not compulsory, attendance is directly linked with your class participation grade. If you attend class, you can participate and get class participation grades. Students with good participation grades will have a better chance of improving their grade especially if they are borderline cases. For example, you receive a total of 6.9 ("Aprobado") in all your assessments together. If you received a good class participation grade, there is more chance I will be kind and increase the grade to 7.0 ("Notable"). If your class participation grade is on the borderline between pass and fail, then you will deserve no such kindness.

Class Preparation and Participation:

Students are required to prepare before each lesson according to the Lesson-By-Lesson (LBL) Plan available in ADI. Preparation includes reading the set readings and doing the assigned drills and problem sets for the lesson.

Each week on the same day of your class, *all students* must hand-in their own solutions to the assigned drills and problem sets. You will receive a grade that counts towards your class preparation. If you can't hand-in the work during the class that the work is due, you can it hand-in before the class or give it to one of your classmates to hand-in for you. Work will *not* be accepted after the due date.

Students are required to participate in class by answering questions regarding the lesson preparation material, asking interesting and well thought questions, and showing a keen interest in the topics. Good quality questions include ones that show you have thought about the problem but that there is something unclear that you want explained. Bad quality questions are those that show little thought about what has been said (repeatedly) before. Each lesson, several students will be randomly selected to answer questions.

There are approximately 10 class preparation assignments (i.e. homework). The following is a guide to how I will grade *each* class preparation assignment and *each* class participation:

Class Preparation (15%)	Class Participation (10%)
-0.5 point = work not done or not	0 point = not present to answer any questions

submitted	and did not inform me before class of absence
-0.5 point = work submitted but is terrible/ far below standard required	0 points = couldn't answer a simple question, showing little effort to participate
0.5 point = work done but still below standard required	0 points = asked a question that showed no prior thought/ answer was incomplete or inadequate
1.5 points = work done to required standard	1 point = asked a decent question/ answered a question to the standard expected
2 points = work done very well; a model for others	2 points = asked a very good question/ answered a question very well

After the mid-term exam and just before the final exam, I will give an interim grade for class preparation and another for class participation each out of 10.

Excel Exam:

Excel (or its equivalents like Google Sheets) is an extremely important tool to learn for finance and business (and life) in general. You will be required to take a short 30 minute excel exam in the School computer room using the computers provided. It will be very similar to the excel exercises that you will be asked to do as part of your class preparation exercises. There will be no classes on excel. Students are expected to learn on their own with materials provided.

Case Group Video:

Students will be required to solve a case in groups. A limited time will be given to solve the case. Your group will have to make a video recorded presentation of their solution, upload it to the internet, and email the link to the professor before the deadline (i.e. YouTube-like videos).

Grading criteria: the video should not last more than 3 minutes, and will be graded on the *accuracy of the solution, clear step-by-step presentation, clarity of speech and body language, and innovativeness*, which includes being original and humorous.

Examinations:

All examinations are closed-book and consist of problems that require showing step-

by-step solutions that demonstrate financial thinking. Some formulae may be given. The problems will be similar to those that appear in the Problem Sets and past exams (which are all available in ADI).

Grading criteria: Students solutions to problems will be graded according to *numerical accuracy* of solution, *clear step-by-step development* of solution, and *clear diagrams* that reflect fundamental financial thinking.

Missing the Final Exam will mean receiving a final grade of “NO PRESENTADO” (“NO SHOW”). If no written justification is provided and verified by the Director of Studies, then it is equivalent to failure.

5. Conduct

Code of Conduct

- Punctuality is required at all times. Students must be on time for classes. If you don't come on time, please do not come at all.
- If you cannot come to class for whatever reason, you may send an email before the start of the class with the reason and I will take note of it. However, your class attendance will still show that you did not attend that day.
- If you need to leave class early (e.g. to take a driving or TOEFL test), please see me before the start of class to tell me that you need to leave early.
- If you need to leave the class temporarily (e.g. to answer an urgent phone call or go to the restroom), just go and come back quietly and with minimum disturbance to your colleagues and to the class.
- Financial and scientific calculators are permitted, but computers, PDAs, mobile phones, and anything with communication capabilities are strictly prohibited into exams or quizzes.
- If you do not bring your calculator to an exam, or are missing other things for the exam, you will have to do without it. You will not be allowed to borrow anything from anyone once the exam has begun.
- There is no talking, socializing, or disruption of class (Classes can be fun, but you are here to learn and so is the student next to you). Specifically, no mobile or smart phones, PDA, etc are allowed to be used during a class.
- Water is allowed, but no food or other drinks are allowed in class.

6. Resources

6. Resources

Required textbook

- T.J. Biehler (2008) “The Mathematics of Money. Math for Business and Personal Finance”, McGraw-Hill Higher Education. All exercises will be set from this first edition. You can use a paper version or electronic version.
- UNAV Library has the textbook: click [here](#)
- <http://www.mhhe.com/biehler1e> : You can purchase premium access to the textbook’s website.

Excel Websites

Students are expected to learn excel by themselves. You will be asked to do exercises and hand-in work that is done in Excel. There are many websites you can learn from and which you should discover by yourself. However here are a few that I find helpful, especially in converting between English and Spanish versions of Excel.

- <http://www.piuha.fi/excel-function-name-translation/index.php?page=espanol-english.html>
- <http://www.planillero.com/convert-formulas.aspx>

Recommended bibliography:

(“Recommended” means you do not need to get it, but are further sources you can use for your personal study).

- J.E. Rogers, Haney B. F (2000). “Mathematics of Business” Pearson Prentice Hall [Find it in the Library](#)
- Pilar Maynar (2008), “La Economía de la Empresa en el espacio de educación superior”, McGraw Hill. [Find it in the library](#) (print version) [Find in in the Library](#) (electronic version)
- Samuel A. Broverman, “Mathematics of investment and credit” ACTEX Academic series, 5th edition (2008). [Find it in the Library](#)
- Jesús M^a Ruiz Amestoy, “Matemática Financiera – Ejercicios resueltos”, Ed. Centro de Formación del Banco de España. [Find it in the Library](#)

7. Office hours & FAQ

7. Office hours & FAQ

(Click [here](#) to make appointment online with Dr. Ian Kwan)

(Click [here](#) to make appointment online with Dr. Carmen Aranda)

Office hours & out-of-class communication

To help students resolve problems or receive more detailed and personal explanations of concepts you find difficult, students are strongly encouraged to visit Dr. Kwan or Dr. Aranda during office hours outside of class time. Rather than come individually, try to come in groups of 2 or 3 people. Office hours and locations can be found in the General Section of this Syllabus.

Before coming for Office Hours, you should book an office hour time slot by clicking on the links above. If there are no bookings, we will not come for office hours.

If you have important or urgent needs (including justification for missing an exam or assignment deadline), the first thing is to ask prof. in class. If you can't come, write me an email (ikwan@unav.es; maranda@unav.es) stating your Group and Class number.

Frequently Asked Questions & Frequently Given Answers

Student's FAQs (Frequently Asked Questions):

1. Do I really need to get the required textbook?
2. Which version of the textbook should I get?
3. Where can I get the textbook from? Can I borrow it from someone else? Can I borrow it from the library?
4. Is class attendance compulsory?
5. How do I get class participation grades?
6. What happens if I have an assignment due on a day I cannot go to class?
7. How should I inform the professor of my absence?
8. What happens if I don't hand in an assignment?
9. What should I do if I miss an exam?
10. What is and where do I get my group and class number? How do I use them?
11. What happens if I forget my calculator or other things on the day of the exam?

Professor's FGAs (Frequently Given Answers):

1. It is a required textbook, but I cannot force you to buy it so it depends on you. Many of the exercises in the Drill Sets will come from the textbook. If you don't have it you can't do the exercises. Many students have trouble with the vocabulary and need definitions. The textbook is good for this. If you are learning a subject for the first time completely in English, then you will probably need a textbook to help you through. We will use 50% of the textbook, especially the first five chapters and parts of the other chapters on applications. You will be expected to read most of it yourself as assigned reading. If you don't read it and you don't understand what the content of the classes, then you can only blame yourself for not doing your own personal study.
2. The required version is the old one, the first edition published in 2008. All the exercises and drills refer to this version. The book can be a paper or electronic version; it's up to you. If you want to get a newer version, you may but the numbering of the exercises and the exercises themselves may be quite different from the 2008 edition.
3. You can get the textbook any way you like. Unfortunately the University bookstore does not generally stock books in English, so you will have to purchase it from an online store. There are also old copies that you can buy from other students who took the subject before. You can also borrow the book from the library (see [link](#))
4. Going to class is your own responsibility. I will not explicitly take class attendance, but I will randomly ask students to provide answer to questions in order to award class participation grades. See the next question and answer.
5. To get class participation grades, you need to ask and answer questions in class. To help students get these grades, I will randomly ask 5-7 students in each lesson to answer questions. I call you by class number and if you can answer the question, you will get 1 point; if you answer the question well, you will be awarded 2 points. If you are not there, then you will be awarded zero points for class participation.
6. If you have assignments due on a day but you cannot go to class, you should give them to a

- friend who should hand it in for you. If you miss the deadline, then that is also your responsibility (see related Q&A). You cannot hand-in assignments after the deadline. They will not be accepted.
7. If you are going to be absent from class and don't want to risk losing class participation grades, you can send me an email (ikwan@unav.es) to inform me of your absence, stating correctly your name, reason, group and class number (e.g. A21 means your group A and class number 21). You must send me the email *before* class.
 8. If you don't hand in an assignment, you will get -1 point for class preparation. If you could not hand in an assignment because of illness or other truly exceptional circumstances, send me an email *stating your full name, group and class number, and reason* for not handing in the assignment. In these cases you will just get zero points.
 9. If you miss an exam with no prior written warning by email, you will automatically get zero with no chance of taking the exam at another time. If you cannot go to an exam because you are sick, you need to submit to the School Office a medical certificate to get authorization for your absence. Once the authorization has been obtained, your zero grade will be reconsidered.
 10. Because there are many students taking this subject and there are multiple groups, each group is named A, B, or C. Within each group, each student is given a Class Number (e.g. 1, 2, 3...) to help in class administration. I will assign each student a class number after the first few weeks of lessons. Please put on ALL your work including exams, your Group and Class number. It helps me enormously in the administration of your grades.
 11. If you forget your calculator on the day of the exam, BAD LUCK! If you don't have it, you will have to do without. You not permitted borrow a calculator or anything at all from another person during the exam.

8. Subject details

8. Detailed Subject Outline

Detailed outline

The following is a more detailed outline of the content of the subject. See the Lesson-by-Lesson Plan for more details about what assignments are due and when.

Topic 1: Introduction to Finance and Time Value of Money

1.1 Introduction to Finance

- Valuation and cash flows
- Role of time and risk
- The problem of finance jargon – simple concepts with complex vocabulary

1.2 Concept of TVM

- TVM = time value of money; simply speaking “Time equals money”.
- In general, the longer you invest your money, the higher the expected return.

1.3 Problem of finance jargon

- Finance, like all other subjects and professions, has its own technical vocabulary called jargon.
- Quite often different jargon terms have the same underlying meaning but used in ways that depend on the situation; this is a cause of confusion for students.
- Students need to be aware of this and focus on the financial thinking to avoid the confusion, especially when looking at the same concept in different textbooks.

1.4 Importance of self-learning excel and calculator skills

- In this subject and in most of your university and working careers, you will be expected to have intermediate to advanced skills in Microsoft Excel. However, you will need to learn these skills yourself and be required to produce work using Excel.
- You will not be required to take Excel into exams. You are expected to know how to use your business or scientific calculator.

Topic 2: TVM: Valuation of single cash flows

2.1 TVM: “interest on principal cash flow” perspective

- Simple interest – depends only on time, principal, and interest rate calculated on the principal; there is only one period in time
- Compound interest – depends on time, principal, accumulation of interest on principal, and the interest rate on the principal plus accumulated interest; there are multiple periods in time
- Future value vs. Present value using simple or compound interest

2.2 TVM: “discount on final cash flow” perspective

- Simple discount – depends on time, final cash flow, and discount calculated on the final cash flow; there is only one period in time
- Compound discount – depends on time, final cash flow, accumulation of interest on principal, and the interest rate on the principal plus accumulated interest; there are multiple periods in time

2.3 TVM: “effective interest” perspective

- Effective interest rate
- Effective discount rate – not used often, but to illustrates the parallel between interest and discount
- Future value vs. Present value using effective interest or discount rates

2.4 Use of Excel to value single cash flows

Topic 3: TVM: Valuation of multiple cash flows

3.1 Valuation of Cash Flows (*a finite number of different cash flows*)

- The value of an asset is equal to the sum of the present value of each future cash flow.
- The general valuation formula for future cash flows.
- “Moving” cash flows from present to future and from future to present

3.2 Valuation of Annuities (*a finite number of level cash flows*)

- If future cash flows are the same and are of a finite number, the general valuation formula can be simplified.

3.3 Valuation of Perpetuities (*an infinite number of level cash flows*)

- If the future cash flows are the same and are continue infinitely into the future, the general formula can be simplified even more.

3.4 Use of Excel to value a stream of cash flows

Topic 4: Measuring asset performance

4.1 Types of asset performance measures

- Percentage returns: dividend yield, total returns
- Dollar returns (or dollar value): capital gain, accounting return, economic return
- Introduction to risk and diversification (not part of syllabus à Finance 1)
- Risk adjusted returns / Sharpe ratio (not part of syllabus à Finance 1)

4.2 Rates of Return

- Simple (or arithmetic, absolute, total) rates of return
 - Holding Period Rates
 - Annual Percentage Rates
- Effective (or geometric) rates of return
 - Effective Annual Rates & CAGR
 - Internal Rate of Return
- Effects of inflation on rates of return

4.3 Dollar Returns (dollar value)

- Simple dollar returns (capital gain, accounting dollar value) – no TVM
- Net present value (economic dollar value) – includes TVM

4.4 Use of Excel to measure asset performance

Topic 5: Applications

5.1 Stocks

- Dividend discount model

5.2 Bonds

- Characteristics: par value, coupon amount, coupon rate, coupon frequency, maturity

- Primary and secondary sales of bonds
- Premium vs. discount vs. par bonds
- Coupon paying vs. Zero coupon bonds
- Calculating yield to maturity
- Constructing and interpreting a yield curve
- Bond ratings and investment risk
- Hold to maturity vs. secondary sales and coupon reinvestment risk, etc.
- Clean vs. dirty prices

5.3 Mortgages

- Amortization table
- Floating vs. fixed rate mortgages
- Making extra payments

5.4 Use of Excel to in each of these applications

8a. Lesson-by-lesson plan

Lesson-by-lesson Plan (LBL Plan)

Access LBL Plan [HERE](#) - updated

At the start of the semester, additional information will be provided on the Required Readings, Required Exercises, etc., in a detailed Lesson-By-Lesson Plan. You use this Plan to plan your study and submission of exercises. The Lesson-by-Lesson Plan will be continuously updated to reflect the on-going teaching progress.

The LBL Plan contains a detailed outline of what will be taught and when, as well as what assignments have been set and when they are due. You need to follow the LBL Plan closely.

9. Group A Content: ADEb(1)/ECO/ELG

Content specific to Group A will be posted here...

- Degree in Management (ADEb-Group 1)
- Degree in Economics (ECOOb)
- Economics, Leadership and Governance (ECOOb+G)

(currently empty)

10. Newly arriving students

If you will come / have come to class on time from the beginning of the semester, you do not need the information below.

However, if will come / have come late and missed classes since the beginning of the semester (for whatever reason), please use the information and link [here](#) so that you can catch up more quickly. The link gives you access to:

- a. The Syllabus - explains the subject and assessments -- important to read!
- b. The PowerPoints for Topics 1 and 2
- c. The Problem Sets for Topic 2
- d. Look at 8a for the Lesson-By-Lesson plan (in the menu on the left), which tells you when homework assignments are due.

Casos y participación en clase

Casos

Los alumnos tendrán que realizar un caso en grupo. Lea el documento de ADI "[Guía trabajo en equipo](#)"

Participación en clase

Se calificará en función del tipo y frecuencia de preguntas hechas en clases y fuera de clase en las tutorías, lo que denota el interés por la asignatura. Incluye también las entregas de problemas, la resolución de problemas en clase y la respuesta a las preguntas planteadas por el profesor.

Competencias

Competencias básicas:

CB2) Que los estudiantes sepan aplicar sus conocimientos a su trabajo o vocación de una forma profesional y posean las competencias que suelen demostrarse por medio de la elaboración y defensa de argumentos y la resolución de problemas

dentro de su área de estudio

CB5) Que los estudiantes hayan desarrollado aquellas habilidades de aprendizaje necesarias para emprender estudios posteriores con un alto grado de autonomía

Competencias generales:

CG3) Dominar herramientas informáticas, matemáticas o técnicas relevantes para la actividad académica y profesional en lo económico y empresarial.

CG4) Trabajar en equipo

CG7) Conocer los diferentes entornos en los que desarrolla su trabajo: la coyuntura, los mercados, el contexto histórico, legal o humanístico.

Competencias específicas:

CE2) Conocer los aspectos más relevantes de operaciones societarias, derivados financieros, medidas de riesgo, y/o proyectos de inversión.

CE10) Aplicar el razonamiento matemático y/o las herramientas cuantitativas a la resolución de problemas asociados a la toma de decisiones en la empresa.

Horarios de atención

1. Seminario de apoyo. Todos los jueves de 13.00 a 14.00 horas en el seminario S13.
2. El horario de tutorías será los viernes de 9:00 a 12:00. En clase se explicará como concertar una cita con el profesor.

Para reservar una hora, apunte su nombre en la fecha y hora correspondientes del siguiente [link](#)

Programa

Tema 1: Introducción

- 1.1. Una visión global de las finanzas.
- 1.2. Criterios de decisión: rentabilidad, riesgo, horizonte temporal (liquidez), impuestos.

Tema 2: Las cuentas bancarias y los depósitos bancarios. Valoración de un flujo de caja (cantidad de dinero) único

2.1. ¿Para qué sirven? ¿Cuándo se utilizan? ¿Qué criterios hay que tener en cuenta para elegir? Rentabilidad, gastos de mantenimiento y comisiones.

2.2. Rentabilidad: Interés simple y descuento simple.

2.3. Rentabilidad: Interés compuesto y descuento compuesto.

2.4. Rentabilidad: Tipos de interés equivalentes y frecuencia de capitalización.

2.5. Rentabilidad: El tipo de interés efectivo y la rentabilidad media.

2.6. Riesgo: Fondo de garantía de depósitos, “bail-in” versus “bail-out”.

Tema 3: Planes de ahorro y pensiones. Las rentas.

3.1. Planes de ahorro y de pensiones: ¿para qué sirven? ¿Cuándo se utilizan?.

3.2. Elementos claves: El Valor Presente (VP) y el Valor Futuro (VF).

3.3. Combinación de flujos únicos con rentas: rentabilidad de la inversión.

3.4. Terminología y formulas: Rentas prepagables y pospagables, rentas perpetuas y rentas diferidas/anticipadas.

3.5. Valorar rentas con Excel.

Tema 4: Bonos.

4.1. Elementos claves I: rentabilidad (TIR).

4.2. Elementos claves II: ¿Se puede perder dinero invirtiendo en bonos? ¿Cambia el precio de los bonos en el mercado? Horizonte temporal y riesgo de tipo de interés.

4.3. Elementos claves III: Riesgo de quiebra: rating de los bonos.

4.4. Dónde y cómo comprar bonos.

Tema 5: Acciones

5.1. ¿Cambia el precio de las acciones en el mercado? ¿Más o menos que el de los bonos? Factores que afectan a la volatilidad del precio.

5.2. Perfil de riesgo y horizonte temporal del inversor.

5.3. Introducción a la rentabilidad esperada y medición de riesgo.

Evaluación

Como en todas las asignaturas, la nota final que reciba cada alumno es sobre una puntuación máxima de 10 e incluirá la calificación obtenida en todas las pruebas.

- **Convocatoria de diciembre:**

Preparación y participación en clase: 20% (ver documento [“Plan de trabajo”](#)). Incluye pruebas sorpresa, entregas de problemas, problemas resueltos en clase y cuestiones respondidas en clase.

Examen 1: 10% (incluye el material explicado en las 5 primeras lecciones).
Fecha: 6 de octubre.

Examen 2 (Parcial): 20% (incluye los temas 1, 2 y 3). Fecha: 27 de octubre.

Examen 3: Incluye los temas 1, 2 y 3. El alumno podrá sustituir la nota del parcial por la nota de este examen en caso de que la nota sea superior. Fecha: 3 de noviembre.

Trabajo en equipo: 15% (ver documento [“Guía trabajo en equipo”](#)). Fecha de entrega: 24 de noviembre.

Examen Final: 35% (incluye todos los temas). Fecha: 5 de diciembre.

NOTA: Para aprobar esta asignatura, se necesita sacar una nota mínima de 4 sobre 10 en el examen final.

- **Convocatoria de junio:**

Examen: 65%.

El 35% restante se tomará de la nota de preparación y participación en clase y del trabajo en equipo. Es decir:

Preparación y participación en clase: 20%

Trabajo en equipo: 15%

Actividades formativas

Esta asignatura se basa en el aprendizaje continuo. Para ello utilizaremos dos

herramientas básicas:

1. Un plan de trabajo semanal que deberá realizarse ANTES, DURANTE y DESPUES de asistir a clase y que incluye lecturas y problemas obligatorios. Para conocer todos los detalles, descargue el documento [Plan de trabajo](#) del área interna de ADI.

En la asignatura se utilizará el programa Excel, el cual es uno de los software más utilizados en la empresa. Por tanto, igual que usted sabe manejar un móvil o un iPad, usted deberá saber utilizar el Excel. Si no es así, deberá asistir a alguno de los talleres ofrecidos por la facultad o utilizar cualquier otro medio de aprendizaje.

2. En la asignatura deberá resolver un caso practico en equipo. Hasta el 20 de octubre los alumnos podrán formar sus propios grupos de 4 miembros e informar a la profesora (en clase se explicará como). Con los alumnos restantes, se formarán grupos por orden alfabético y se publicarán en ADI el 27 de octubre. El 27 de octubre se publicará en ADI el caso que tenéis que resolver. Cada grupo tendrá que grabar un video presentando la solución; subirlo a internet (por ejemplo , subirlo a you-tube o a alguna plataforma similar) y, finalmente, enviar el link a Aula virtual ADI antes de la fecha de entrega rPara conocer todos los detalles, descargue el documento ["Guía del Trabajo en equipo"](#).

Documentos importantes

- Guía docente.
- Plan de trabajo.
- Lecciones de cada Tema2, 3, 4 y 5.
- Presentación clase Leccion 1, 2,,14.
- Guía del trabajo en equipo.
- Cuadernillo ejercicios Tema 2, 3, 4 y 5.
- Soluciones ejercicios Tema 2, 3, 4 y 5.

Todos los documentos importantes se incluirán en el área interna de la asignatura en ADI

Presentación

Fundamentos de Finanzas A

Profesores

Carmen Aranda.

Características de la asignatura

Curso en el que se imparte: Primero de Administración de Empresas (ADE). y de Derecho y Administración de empresas (DAE)

Semestre en el que se imparte: Primero.

Tipo de asignatura: Básica.

Créditos: 6 ECTS (European Credit Transfer System)/créditos.

Conocimientos previos no requeridos.

Horario: Miércoles de 10:00 a 12:00 (P0 Aula 11).

Viernes de 12:00 a 14:00 (S1 Aula B2).

Friday 29th and Monday 1st of April (*time to be confirmed*)

Schedule: 12:00 – 14:00 & 16:00 – 17:00

Office Hours: by appointment

Seminar ‘Transatlantic relationship between the EU & USA’

10 hours

Week of the 11th of February

Objetives

Course description and objectives:

The European Union was born with the objective of promoting peace, stability and prosperity in Europe after World War II. In over five decades, the EU has grown from its 6 original members to the current 28 (soon to be 27 after the exit of the United Kingdom) and has become a major political and economical actor on the world stage. The creation of a common currency, the establishment of a single market or the abolishment of border controls through the Schengen Area are some of the key achievements of the European Union. With its highs and lows, the European Integration is without the most successful experiment in international cooperation.

The European Union influences the daily lives not only of its 500 million citizens, but

also if its around 26 million active enterprises. Therefore, business leaders must understand the EU and how its regulation has an impact on business activities. This course examines the history, the institutional structure, the policy-making process and the main policies of the European Union. In addition, it analyzes recent critical events that have affected the Union and future challenges that Europe is facing.

It is expected that by the end of the course, students should be able to:

- Become familiar the European integration process that led to the creation of the current European Union
- Understand the political, economical and social systems of the EU and its institutional architecture
- Develop awareness of the challenges ahead for the Union
- Demonstrate the ability to discuss and critically analyze the topics presented during the course

Textbooks and other Resources

Recommended textbook and readings:

- Michelle Cini and Nieves Pérez-Solórzano Borragán (eds.). European Union Politics, 5th Edition (2016). Oxford University Press.
- Additional readings will be provided as handouts.
- It is suggested that students should also keep abreast of current events in the European Union, by reading newspapers and consult the official EU and other websites:

- www.europa.eu

- www.europarl.europa.eu

- www.euractiv.com

- www.politico.eu

- www.consilium.europa.eu

- www.ec.europa.eu

- www.euobserver.com

- www.euronews.com

Evaluación

Evaluation:

- Final Exam (35%) – Students need to pass the final exam to pass the class
- In-class Group presentation (20%)

- Case studies (5%)
- Attendance and participation (10%)
- Seminar Transatlantic relationship (30%)

Horarios de atención

**Asignatura: Principles of Business Administration A (F.
ECONÓMICAS)**

Guía Docente

Curso académico: 2018-19

Welcome

<http://www.unav.edu/asignatura/pbusinadminAeconom/>

Principles of Business Administration A (F. ECONOMICAS)

Welcome

Dear All,

It is a pleasure to have you all in this course. I am looking forward to get to know you personally, and I hope that this introduction to Business Administration will be of interest to you.

To assure a smooth running of the course, please pay attention to any news and contents here on this website. I will frequently publish new content here and use this online platform to communicate any news. So, please stay tuned.

Tutorials are offered on:

Mondays from 17.00 to 19.00.

Tuesdays from 10.00 to 12.00.

Wednesdays from 12.00 to 14.00.

Please contact Dr. Marcel Meyer (mmeyer@unav.es). Room 2040, Amigos Bldg.

Best regards,

Marcel Meyer

Introduction

Course name: Introduction to Business Administration

Course description:

This course's purpose is to facilitate the development of analytical and critical awareness; especially in relation to business settings. The course is designed in such a way that students start to understand how to formulate, implement and evaluate organisational strategies. Thus, it means to offer students a firm academic base and provide conceptual tools for the effective functioning of the business organization.

The course takes into account that it represents the first time that the student encounters topics related to business and management and is, therefore, specifically developed for Bachelor students who desire a first qualification in business studies. Hence, the course takes a more academic than practical approach and focuses on three main areas:

1. The development of strategic and critical thought.
2. The analysis and implementation of strategy.
3. The role of the 'human' factor in strategic management.

Even though the course will not rely on any prior managerial experience on part of the students, it will still contain a clear experiential learning component. Students are expected to hand in a strategic analysis of a company towards the end of the course. This assignment will foster the students' development of strategic awareness and analysis in a practical way.

The course is led by Professor Dr. Marcel Meyer: mmeyer@unav.es

Tutorials are offered on Tuesdays and Thursdays from 10.00 to 12.00.

Additional Course Information:

Year: First

Semester: Second

Number of credits: 6 ECTS

Type of course: Required

Language: English

Competencies

Competencies

This course is designed in such a way...

CB2) ... that students learn how to apply their knowledge to their work or vocation in a professional way and acquire the skills that are usually demonstrated through the elaboration and defence of arguments and the resolution of problems within their area of study.

CB4) ... that students learn to transmit information, ideas, problems and solutions to a specialized and non-specialized public.

CB5) ... that students develop those learning skills necessary to undertake further studies with a high degree of autonomy.

General Competencies:

The course further fosters the following general competencies:

CG2) Identify, integrate and use the knowledge acquired in the argument, discussion

or resolution of problems relevant to economics and business.

CG4) Team-work.

CG6 Know how to communicate (orally or in writing) the results and the analysis of themes related to economical and business matters.

Specific Competencies (ECO):

The course further fosters the following specific competencies:

CE14) Know the theoretical-practical aspects of how a company works.

Specific Competencies (ADE):

The course further fosters the following specific competencies:

CE4) Know the theoretical-practical aspects of the company, the organizational structure and the relationships between the elements that compose it.

CE8) Develop case studies on relevant economic and business issues.

CE9) Work with computer tools for decision making.

CE15) Raise and answer relevant questions on issues related to the company and / or the economy with a global vision of the knowledge acquired.

CE18) Be critical and defend well own ideas regarding issues related to the company.

Educational Activities

Learning Results

On successful completion of the course students will be able to:

- a. Analyse an organisational situation.
- b. Identify key strategic issues in organizations.

- c. Develop and evaluate strategic options to address issues in an organisational setting and deliberate upon strategy implementation issues.
- d. Contrast and critically compare schools of thought in the strategy literature.
- e. Express assessments and ideas in writing and orally.

These learning results are represented and evaluated by the exam, the written assignment, and the oral presentation. Especially through the written assignment the student shows that he/she can apply the knowledge facilitated in class.

Additional information regarding the written assignment:

Students are expected to do a strategic analysis of a company they choose. This strategic analysis should ideally include the following parts:

Outline

Management Summary (1/2 page)

Introduction (1 page)

Company Presentation (2 pages)

External Analysis (2 pages)

Internal Analysis (2 pages)

Analysis of the strategy (2 pages)

Conclusions and Recommendations (1pages)

Bibliography.

The analysis of the strategy should ideally concern the strategic fit between the company's strategy and the external and internal factors. It should ideally deal with possible problems concerning the company.

The length of the written assignment should be around **10** pages (+/- 1 pages). The document (*WORD*) should be typed in Time New Roman size 12 or similar and should be double spaced.

The assignment is to be handed in as a PDF (electronically) until the end of the course.

Programme

Course Program:

Introduction

Topic 1: The Business Firm. (4 classes)

Topic 2: The Concept of Strategy. (2 classes)

Part 1: Inside the business: Internal analysis:

Topic 3: Goals, Values, Ideas and Performance. (1 class)

Topic 4: Analysing Resources and Capabilities. (1 class)

Topic 5: Organization Structure. (1 class)

Topic 6: The multi-business corporation. (1 class)

Topic 7: The Marketing Mix as a strategic tool. (1 class)

Part 2: Oral Presentations (2 classes)

Part 3: The environment: External analysis

Topic 8: Industry Evolution. (1 class)

Topic 9: Industry Analysis: The Fundamentals. (4 classes)

Part 4: The human factor: Going above and beyond

Topic 10: Leadership & Motivation & Communication . (6 classes)

In between sessions: To give students early feedback on their written assignments, the course program includes four sessions for students to work in groups on their strategic analysis in predetermined spaces (*seminarios*). (4 classes)

Assessment

Assessment strategy

The assessment strategy consists of three components. On the one hand, students must pass a final exam. This exam is based on the course content. It is multiple choice. The exam accounts for 50% of the overall grade. It must be passed with a minimum grade of 4,5. On the other hand, students are expected to hand in a written group assignment towards the end of the course. This written assignment counts for 25% of the overall grade. The course also contains a mid-term presentation (group presentation). This oral presentation accounts for another 25% of the overall grade.

CE18) Be critical and defend well own ideas regarding issues related to the company.

EA

I. Classroom teaching activities

1. Lectures

Lectures are given by the professor on the themes indicated in the syllabus with the help of the blackboard, power point presentations, and videos. The power point presentation is posted on ADI in the Contents section. The lectures are interactive that means that students are encouraged to ask questions, make comments and engage in discussions with both the professor and their class mates. The participation is one of the three grade components and counts for 30% of the overall grade.

2. Presentations (Required)

Students will form groups of 7 to 10 members, choose one of the papers listed in the Bibliography and then present the papers in front of the class. The students may choose whether to present 30 minutes and allow questions during their presentation or whether they have a 10 minute Q&A session after their presentation. Those presenting cannot answer questions: that must be done by those not presenting. The presentations will be at the end of the second third of the semester.

4. Evaluation

The final exam assesses the successful accomplishment of the objectives and carries a weight of 40% of the overall course grade.

II. Personal work

Students must understand themes covered early in the course to be able to comprehend information presented later in the course, and will have to be able to integrate material learnt throughout the course. Therefore, it is important that they do not fall behind and try to set aside regular times outside of class to work on the course material on a daily basis.

1. Students must read all the papers before the presentation.
2. Students should conduct personal study using the notes they take during the lectures.
3. Students have to engage in team work and meet with the professor as a group to prepare their presentation.

Credits/hours distribution of the activities. 6 ECTS= 150 h (25 h/ECTS)

- 60 hours attending classes.
- 40 hours of personal study: reading articles and study.
- 30 hours of team work for the presentation.
- 20 preparing for the final exam.

Assessment

There will be 3 grading components. Exams questions will be drawn directly from lectures, class discussions and the presented papers.

To calculate the final grade, course performance and grading will be determined as follows :

- Presentation 30 %
- Final exam 40 %
- Class Participation 30 %

The final exam will be held in May - the precise date will be announced during the semester.

Criteria to pass the course

Students whose final grade is 5 points or more will pass the course.

Students whose final grade is below 5 points will not pass the course and will be graded as *Suspense* .

Students who do not take the final exam will not pass the course and will be graded as *No presentado* .

Exams review

Students will be able to review the exams in an interview with the professor, after publication of the grades, on a day and place that will be announced.

Special assessment

For those who do not pass the course in May or did not take the exam (grades *Suspense* or *No presentado*) there will be an extraordinary resit exam in June which will account for 40% of the final grade.

Students with special learning needs

Accommodation will be provided for students with special learning needs, either regarding the methodology and/or evaluation of the course, but they will be expected to fulfill all course objectives. Students with a learning impediment must approach the professor at the beginning of the semester, otherwise their special situation cannot be taken into consideration.

Bibliography and Resources

The PowerPoint slides for the lecture can be found under Contents.

Here is the list of papers from which students must choose their presentation from:

Conklin, J. (2001). Wicked problems and social complexity. *CogNexus Institute*. (first chapter of a book, free to download at CogNexus)

Drucker, P. F. (2004). What makes an effective executive. *Harvard Business Review*, 82(6).

Gosling, J., & Mintzberg, H. (2003). The five minds of a manager. *Harvard Business Review*, 81(11), 54-63

Hamel, G. (2011). First, let's fire all the managers. *Harvard Business Review*, 89(12), 48-60.

Herzberg, F. (2003). One more time: How do you motivate employees? *Harvard Business Review*, 81(1), 87-96.

Mintzberg, H. (1971). Managerial work: Analysis from observation. *Management Science*, 18(2), B-97.

Mintzberg, H. (1995). Musings on management. Ten ideas designed to rile everyone who cares about management. *Harvard Business Review*, 74(4), 61-67.

Mintzberg, H., & Waters, J. A. (1985). Of strategies, deliberate and emergent. *Strategic Management Journal*, 6(3), 257-272.

Mintzberg, H., & Westley, F. (2001). It's not what you think. *MIT Sloan Management Review*, 42(3), 89-93

Pfeffer, J. (1992). Understanding power in organizations. *California Management Review*, 34(2), 29-50.

Schein, E. H. (2002). The anxiety of learning. Interview by Diane L. Coutu. *Harvard Business Review*, 80(3), 100-106

When you are using the University's internet connection, you simply go to Scholar Google, search for the papers like on regular Google and use the right hand links to download the paper. The Conklin paper should be searched for on regular Google: it is freely available on Jeff Conklin's website.

Proyecto Integrado II

Revista digital

“I grew up in a physical world, and I speak English. The next generation is growing up in a digital world, and they speak social”- Angela Ahrendts

“We are in the throes of a transition where every publication has to think of their digital strategy.”- Bill Gates

“By 2025, we can expect the world to be completely digital. Paper books will be a thing of the past. Education will be delivered through analytics-based assessment tools and adaptive learning platforms.”- Osama Rashid

“Paper is no longer a big part of my day. I get 90% of my news online, and when I go to a meeting and want to jot things down, I bring my Tablet PC. It’s fully synchronized with my office machine, so I have all the files I need. It also has a note-taking piece of software called OneNote, so all my notes are in digital form.”- Bill Gates

“Analog is more beautiful than digital, really, but we go for comfort.”- Anton Corbijn

“The viral power of online media has proven how fast creative ideas can be spread and adopted, using tools like cellphones, digital cameras, micro-credit, mobile banking, Facebook, and Twitter. A perfect example? The way the Green Movement in Iran caught fire thanks to social media.”-Tina Brown

Durante el segundo año en el programa de Economics Leadership and Governance, el alumno aprenderá la importancia de administrar bien su tiempo, ampliará su red de contactos y se mantendrá informado de los temas de actualidad mientras planifica y utiliza técnicas que lo ayuden a mejorar su trabajo como el delegar tareas entre los integrantes del grupo.

Universidad
de Navarra

Entrevistas

Temas de actualidad

Motivación

Toma de decisiones

Creatividad

Habilidades de comunicación escrita

Red de contactos

El objetivo es crear una revista digital abierta al público donde, el diseño y los temas a enfocar serán auto-denominados por parte de los alumnos y los lectores. Estos últimos evaluarán los contenidos a través de su participación con comentarios y reacciones a las publicaciones.

El alumno contará con sesiones de seguimiento periódicas y voluntarias en las que recibirá retroalimentación por parte de asesores como de sus compañeros de clase.

European Dialogues (F. Económicas)

SCHOOL OF ECONOMICS &
BUSINESS ADMINISTRATION

**ECONOMICS, LEADERSHIP & GOVERNANCE
DEGREE PROGRAM**

Course: European Dialogues

Professor: Dr. Iñigo González Inchaurrega - igonzalesi@unav.es

European Dialogues is a 10 hours required course in ECONOMICS, LEADERSHIP & GOVERNANCE undergraduate program. 2 ECTS Credits.

Schedule: Mondays & Fridays as pointed out in the next chart from 12.00 am to 14.00 pm. Class 13.

Tentative schedule for 2016-2017

Theme/Subject	Getting ready for debate	Debate on	Dialogue with:
Introduction Political Priorities of the European Union. 1. Is our priority in the EU the employment, growth and competitiveness? Or 2. Our priority is liberty, security and justice?	*1. Find 2 information sources. *2. Find solid arguments to defend your position. *3. Find arguments to disrupt the opposite position.	*January 16 th , Monday. **Class 13. ***From 12.00 to 14.00.	*January 20 th Friday 2017 **Mr. Álvaro Renedo
The future of the Euro and the monetary union. Has the Euro been a failure?		*January 30 th , Monday. **Class 13. ***From 12.00 to 14.00.	*February 3 rd , Friday 2017 **Mr. Xavier Vidal Folch
Refugee Crisis in the EU. Should we close our borders?		*February 20 th , Monday.	*February 24 th , Friday 2017

	Class 13. *From 12.00 to 14.00.	**Mr. Antonio Garrigues Walker
EU Banking Union. Should we implement a Baking Union?	*March 6 th , Monday. **Class 13. ***From 12.00 to 14.00.	*March 10 th , Friday 2017 **Mr. José Manuel González-Páramo
Will the populist movements change the roots of the European Union?	*March 13 th , Monday. **Class 13. ***From 12.00 to 14.00.	*March 17 th or 24 th , Friday 2017 **Person to confirm

Dialogues Europe consists in two parts: Debate + Dialogue.

Structure of the Debate

- 5 Topics, 5 debates
- 2 groups for each topic: YES vs NO
- New group members for each topic
- All group members research about the topic
- 5 teams within each group
 - 1. Define, outline
 - 2. Defend, explain, rebut
 - 3. Backup, extend, rebut
 - 4. Explain, sum up
 - 5. Short essay (after dialogue)

As for the debate itself, it consists in 4 rounds of 7 minutes each, for each group

1st opening proposition, Group YES, Group NO

2nd opening proposition (rebut), YES, NO

1st closing proposition

2nd closing proposition

*** Consider strategies (visit “Roles in a Debate”)**

Please, find additional information about the course

- 1: Topic of the debates & Group members: "Actividades formativas" section"
2. Link to sources about debate rules and tips: " Bibliografía y recursos" section

Se adjunta el comentario enviado a una alumna para la preparación y dinámica de los debates, que lógicamente es igual para todos:

- Estáis divididos en 5 subgrupos.
- Antes del debate todo el equipo trabaja junto para encontrar fuentes, argumentos a favor de vuestra posición (en el plano político, histórico, social, institucional, económico).
- También tenéis que encontrar los argumentos en contra para saber cómo os van a atacar y preparar la defensa.
- Igualmente necesitáis saber los puntos fuertes y débiles de la posición contraria para preparar vuestro ataque.
- Con todo esto tendréis que diseñar vuestra estrategia: cuántos argumentos de apoyo a vuestra posición poner en cada intervención, cuánto ataque y cuándo a la del rival. Decidid en qué momento sacáis el "*killing argument*".

Con todo esto cada uno de los 4 subgrupos prepara la estructura de sus 7 minutos de intervención.

- En la sesión de debate del jueves entran en acción 4 subgrupos, que corresponde a las 4 rondas de debate de cada equipo.
- En cada subgrupo habla solo una persona.
- El primer subgrupo lo tiene "más fácil" ya que su intervención estará cerrada antes de empezar. Por eso esa intervención tiene mucha importancia porque no tiene excusas de improvisación y marca el debate del resto de intervenciones. Su único problema es que no sabe si habla primero o segundo.
- Para las otras tres intervenciones de cada equipo están obligados a combinar las ideas y argumentos que ya estaban previstos (de defensa y de ataque) con la incorporación sobre la marcha de los argumentos y ataques que haya lanzado el equipo rival. Por eso los miembros de esos 3 subgrupos podrán tomar notas y cuchichear para ajustar la estructura de su debate, mientras los otros subgrupos están interviniendo. Pero, si molestan, el juez puede dictar penalización contra el equipo.

- Por todo lo dicho, se entiende que es necesario hacer una puesta en común previa al debate, para que todos los subgrupos conozcan todos los argumentos a favor y en contra, para poder saber cómo utilizarlos en su intervención.

Finalmente, el subgrupo 5 va tomando notas durante el debate y durante el diálogo, para seleccionar aquellos argumentos a favor (y en contra del rival) que hagan más convincente su posición en el ensayo de 500 palabras.

- El plazo para entregar el ensayo es el jueves de la semana siguiente.

Nota adicional: los que redactan el ensayo deben entregar también un documento aparte con la lista de todos los documentos usados por el equipo para la preparación de los argumentos del debate. Deberán valorar cada documento, con nota de 1 a 10, con respecto a dos criterios: a) credibilidad/ autoridad de la fuente y sus autores. b) solidez/rigor del contenido.

Otro apunte importante: los 8 que hablan en público en el debate 1 no vuelven a hablar en un debate siguiente hasta que haya pasado el resto de la clase. Es decir, en el debate 2 presentan los que no han presentado en debate 1. En debate 3 presentan los que no lo hicieron en 1 y en 2.

Se agradecerá que los que quieran compartan en Twitter durante el debate fotos del debate, argumentos, usando el hashtag #debateELG

International Legal Foundations (F. Económicas)

SCHOOL OF ECONOMICS &
BUSINESS ADMINISTRATION

ECONOMIC, LEADERSHIP & GOVERNANCE

Course: International Legal Foundations (ILF)

1. Presentation and introduction

- **Mandatory course. ECTS:** 4,5
- **IN** class hours: 45 hours.
- **OUT** of class hours: 52 hours (individual or in group).
- **Second year**, first semester of ELG.
- **The whole course** is developed in English.
- **Kick off session:**

-September 14th 2018– 11.00 am to 14.00 am - “Amigos” Building – Class P0. Seminario 15.

- **Regular sessions:**

-All Fridays from 11.00 am to 14.00 am– “Amigos” Building – Class P0. Seminario 15.

- **Last session:**

-November 30th from 11.00 to 14.00 – “Amigos” Building – Class P0. Seminario 15

- **Professor: *Dr. Iñigo González Inchaurrega***

e-mail: igonzalezi@unav.es

2. INTRODUCTION

2. Introduction

International Legal Foundations (ILF) is a mandatory course for all participants of the ELG program. This is a course for all students with an interest in Global Law and future economists who want to be aware about international legal practice. The target of the course is to make all participants familiar with the origin of International law, its evolution towards a Global law, with the main issues of what we call “The Use of Force” and, finally, with the most important matters related with the concepts of universal justice and human rights. All this from and Spanish and European perspective.

This area of public law is highly challenging, because all economists & entrepreneurs involved in **international affairs** know they will have to develop their professional activities in a international fast changing legal environment, that needs a constant updating of the international legal knowledge. In this course we will learn the main basic concepts and we will acquire the skills to be able to update our knowledge as fast as the market requires it. You will have to learn that our main target is to “**understand complex problems to create solutions**”.

3. TARGETS & SKILLS

3.1. To develop the next skills

GENERAL SKILLS

1. Development of logical reasoning.
2. Capacity for analysis and synthesis of the issues addressed.
3. To develop oral communication skills.
4. To develop team work capacity.
5. Punctuality and ethical behaviour in daily procedures.
6. Interdisciplinary overview of international legal and economic issues.
7. Initiation into basic research techniques. Develop skill in critical writing in short essays.

SPECIFIC SKILLS

1. Capacity to understand basic concepts international legal foundations.
2. Understand basic ideas of the different legal traditions of the world to form opinions about the reality of global law environment.

3. Become aware of the ethical dimension of professional work.
4. Understand basic aspects interconnected between international law and international economics.
5. Capacity to ask and answer relevant questions about international legal issues with an overview of the knowledge acquired.
6. Basic legal knowledge, knowing how to explain in a concise and precise, the administrative structure of the legal system the WTO, its sources, subjects it and its basic operating system performance.
7. Ability to apply a dynamic group the basic rules of negotiation and mediation in conflict resolution.
8. Capability to find and understand basic international legal sources, and make a critical analysis by discovering the main points of the text.
9. Capacity to read and understand basic legal texts.
10. Capacity of legal oratory and capability to express the ideas appropriately, persuasively and convincingly, to the audience.

3.2. Results of learning

The student will be able to explain basic legal contents of the program, establishing relations between international legal issues and international affairs, arguing critical reasons, in essays and oral presentations (individual and in team).

4. PROGRAM

4. Program

4.1. General structure of the course & working areas

1. Introduction to Law
2. From International Law to Global Law
3. The Use of Force

4.2. General curricular track (45 sessions)

Working areas (# sessions)	Tracks to follow
1. Introduction to Law (6 sessions)	1. Introduction to Law 1.1. Kick off session. Wellcome - Presentation & justification of the course. - Targets, procedures and general norms. 1.2. Intro to Law 1.3. The Rule of Law & Constitutional Law 1.4. From Ius Gentium to International Law
2. From International Law to Global Law	2. From International Law to Global Law

(15 sessions)	2.1. Origin and development of International Law 2.2. What is International law?; Concepts & definitions 2.3. Institutions of International Law 2.3. What is a State? Sate, Nation or Nation-State?
3. The use of force (21 sessions)	3. The Use of Force (6) 3.1. The Use of Force I. The nature of war Historical development of the use of force. State rendition. (Movie – Popcorn & Soda session). 3.2. The Use of Force II. Drones; The Legal Dilemma of Uninhabited Aerial Vehicles. 3.3. The Use of Force III. Autnomous Military Robotics. 3.4. The Use of Force IV. Cyberwarfare and International Law. 3.5. The Use of Force V. Fair and Unfair Wars. (Movie – Popcorn & Soda session).
4. Midterm exams or presentations (3)	

5. TRAINING ACTIVITIES

This course will be taught in an interactive format. Students will be expected to arrive at class prepared for the topic and especially cases of the day. The class schedule has assignments to prepare before class and tutorials- any students having difficulty in a particular area is expected to consult additional readings. Students will be called upon to discuss the assigned readings and will present case presentations in class (individually or in group).

The professor views his role as an educator of legal professionals; as such the class will not be taught with an eye to the exam but will instead be taught to develop critical legal thinking in the area of international legal foundations. Doing conference with professor Gonzalez is highly recommended for those students who need additional explanations of concepts.

Among each of three areas of the Program of the course is divided, the students will have to carry out different practical tasks –text analysis, watch two movies, write some short essays, etc.- that will help to understand the contents of the course. Thus, all students will have to share and debate in class their proposals and defend their conclusions.

6. GRADING SYSTEM

6. Grading system

6.1. General evaluation:

Evaluation	Value in % of each training action
1. a) The student meets its commitments, is punctual, participate in class. b) Individual essays (Professor will value: style, tone, technique, reasoning / inference, organization of ideas, understanding, correct sentence formation, critical analysis of	25%

the topic).	
c) Individual public presentations.	
d) The student does not amuse with the phone, internet and other elements in class.	
2.	25%
a) Written teamworks, (Professor will value: presentation of the written file, presentation of the working team. Professor will value if participants provide solutions, if students drive changes and lead ideas. Professor will value if the team has worked beyond their means.	
b) Public presentations with class team.	
3.	20%
Midterm exams.	
4.	30%
Final team presentation is the final exam. Professor will value the general knowledge of International legal foundations that every single student shows, but also how the team presents in public the different tasks.	

6.2. Extraordinary evaluation:

Individual assignment on the topics of the course is required if there is not successfully completed any task.

Asignatura: Probability and Statistics II A (F. ECONÓMICAS)

Guía Docente

Curso académico: 2018-19

Introduction

<http://www.unav.edu/asignatura/probstatistics2Aeconom/>

Probability and Statistics II A (F. ECONÓMICAS)

Probability and Statistics II

Department: Economics

School: Economics and Business

Degrees: Economics and Business Administration

Year: 2º

Organization: Second semester (January - May)

ECTS credits: 6

Type: Compulsory

Language: English

Instructors: Juncal Cuñado (jcunado@unav.es) and Elena Díaz (adiaza@unav.es)

Competences

Basic Competencies (Management and Economics)

BC5. Students should have developed the learning skills necessary to undertake higher programs of study with greater independence.

General Competencies (Management and Economics)

GC3. Mastering the digital, mathematical and technical tools necessary for academic and professional activity in economics and business.

GC5. Developing the capacity for independent critical thought on matters relevant to economics and business.

Specific Competencies (Economics)

SC10. Using mathematical reasoning and quantitative tools to analyze the economic context.

SC11. Properly using software applications in quantitative analysis of economic questions.

SC16. Practically applying the knowledge, abilities and skills acquired.

SC19. Smartly applying quantitative techniques, suitable software and methodological procedures when working on economic issues.

Specific Competencies (Management)

SC8. Developing case studies on subjects related to economics and business.

SC9. Incorporating computer applications in a business's decision-making processes.

SC10. Incorporating mathematical reasoning and quantitative tools in a business's decision-making processes.

SC11. Understanding prediction methods and using computer applications for quantitative analysis of business management.

Educational activities

- **Lectures and problem solving.** Theoretical presentations will be complemented continuously with examples. There will be exercises and problems to solve
- **Practical sessions** with a computer using Stata and Excel
- **Exams** (midterm and final exam)

Assessment

The final grade will be a weighted average with the following percentages:

- Class quizzes (unannounced): 10%
- Team work (problem sets and mini-projects): 15%
- Mid-term exam (February 28th): 25%
- Final exam (May 6th): 50%. A minimum grade of 4 in the final exam will be required in order to pass the subject.

In the extraordinary June exam (June 6th), grades will be determined as follows:

- Team work: 10%
- Mid-term exam: 20%
- Final exam: 70%

Bibliography and Resources

The **theoretical background** of this course essentially follows these texts:

- Lind, D.A., Marchal, W.C., Wathen, S.A., (2011), "Basic Statistics for Business and Economics", McGraw Hill, 15th edition. [Find it in the Library](#)
- Newbold, P., Carlson, W.L., Thorne, B., (2010), "Statistics for Business and Economics", Prentice Hall, 7th edition. [Find it in the Library](#)

Office hours

Instructor: Juncal Cuñado (jcunado@unav.es)

Office: 2180 (Amigos Building)

Office hours: Wednesdays, from 12:00 to 13:00, Fridays, from 11:00 to 13:00, and by appointment.

Instructor: Elena Díaz (adiaza@unav.es): by appointment.

Asignatura: Rethoric (F. Económicas)

Guía Docente

Curso académico: 2018-19

Presentation & Goals

Rhetoric

Professor: Xavier Oliver ([Lknedln](#))

Tuesdays 11:00-12:30. Room 13

Rhetoric is the art of [discourse](#), an art that aims to improve the capability of writers or speakers to inform, persuade or motivate particular audiences in specific situations.

Its best-known definition comes from [Aristotle](#), who considers it a counterpart of both logic and politics, and calls it “the faculty of observing in any given case the available means of [persuasion](#)”.

It is an extremely important subject in today’s over-communicated society because it is extremely difficult to attract employers, colleagues and customer’s attention if not done with lots of intelligence, precision and enthusiasm. This course pretends to discover the hidden potential we have to communicate and, at the same time, learn techniques that will help to explain our ideas better and more effectively.

Instead of talking about Presentation Skills, Story Telling, Content Marketing or Effective Communications, we will use the structure that Aristotle, Cicero and Quintilian developed centuries ago but with the tools of today. The course will be completely interactive with cases and workshops. Group work and class open discussions will be essential to improve individual capacities.

Content

Rhetoric will be organized around eight different parts:

The 5 canons of Rhetoric:

1. **Invention:** the process of developing arguments
2. **Style:** determining how to present the arguments
3. **Arrangement:** organizing the arguments for extreme effect

4. **Delivery:** the gestures, pronunciation, tone and pace used when presenting the persuasive arguments
5. **Memory:** the process of learning and memorizing the speech and persuasive messages

The 3 types of rhetorical proof:

1. **6. Ethos:** How the character and credibility of a speaker can influence an audience to consider him/her to be believable—there being three qualities that contribute to a credible ethos: *perceived intelligence, virtuous character, and goodwill*
2. **Pathos:** the use of emotional appeals to alter the audience's judgment through metaphor, amplification, storytelling, or presenting the topic in a way that evokes strong emotions in the audience.
3. **Logos:** The use of reasoning, either [inductive](#) or [deductive](#), to construct an argument.

Teaching & Learning Approach

The course is completely interactive with cases and workshops.

Group work and class open discussions will be essential to improve individual capacities in this area

Evaluation

Evaluations will be based essentially on the participation in the discussions (60%) as well as with the written group reports and presentations (40%). Implication in the subject is paramount.

Asignatura: Compared political systems (F. Económicas)

Guía Docente

Curso académico: 2018-19

Introduction

<http://www.unav.edu/asignatura/spoliticoeconom/>

Comparative Politics

This class is an introduction to the study of Comparative Politics and it is a natural extension from your introductory class to political science. You will learn about some of the major concepts used in the study of comparative politics, and these will be discussed using frequent real-world examples from a variety of countries. The course will cover a wide range of issues, including the policies of modern states, varieties of democracy, authoritarianism, political culture, institutions, and interest groups. We also will discuss some relatively recent debates in comparative politics that have been important in the policy-making process, such as the role of the state in the economy, the economic success of autocratic regimes, and the growing influence of lobbying in many developed democracies.

Class: Comparative Politics

Class Hours: Thursday 09:00 - 12:00

Aula: Edificio Amigos, Aula 08

Credits: 4,5 ECTS

Competences

Competences of the degree

- Development of logical reasoning in politics.
- Capacity to analyze and synthesize issues in comparative politics.

Competences of the subject

- Acquire theoretical and applied knowledge of basic methods and concepts in comparative politics.
- In-depth knowledge of how different democracies and autocracies work, given their institutional structure.

- Understand the policies of governments in modern states.
- Carry out comparative political analysis in a rigorous way.
- Discuss and develop real world examples.

Learning results

- The student passes the final exam in which the subjects' contents are evaluated.
- Capability of applying theoretical reasoning in a paper that analyzes a topic relevant to the class-material and present the results to the rest of the class.
- Ability to discuss theoretical and applied literature on diverse policy topics.

Program (Outline)

Chapter 1: Comparative Methodology

Chapter 2: Policies of Modern States

Chapter 3: Constitutions

Chapter 4: Political Socialization and Culture

Chapter 5: Political Parties

Chapter 6: Interest Groups

Chapter 7: Presidential and Parliamentary Systems

Assessment

Evaluation

- Grade composition
 - *Final exam:* 30%
 - *Essay:* 30%
 - *Presentation:* 20%
 - *Contributions in class:* 20%

Theoretical lectures are imparted and compulsory! The *final exam* is exclusively based on these lectures.

- The essay is to be written by a group of 2 students with a maximum of 5.000 words. The results will be presented by each group in a 10 minute *presentation* at the end of the semester. A list of topics to choose from will be made available and the essay must employ the analytical tools or concepts explained in class.

The ethical standards of a scientific working style apply.

- [Citation style for papers](#)

Contributions in class are evaluated with 2 points towards the final mark. Students are expected to actively participate in the debates and prepare the assigned texts to discuss them in class.

Final Exam: TBA

Essay hand-in: 29.04

Presentation date: 08.04 (9:00-12:00; Aula 9 FCOM), 11.04

Bibliography

Bibliography

Asignatura: Financial Accounting II B (F. Económicas)

Guía Docente

Curso académico: 2018-19

Presentación

<http://www.unav.edu/asignatura/financialaccounting2b/>

Financial Accounting II B (F. Económicas)

Course overview:

The course of Financial Accounting II is an intermediate accounting course which builds on introductory financial accounting, and develops student's critical evaluation of selected financial accounting issues within the international accounting context.

In this course, you will learn the accounting treatment of non-current assets (tangible and intangible), financial assets, liabilities, and leases.

The course is essential for individuals exposed to financial information in the workplace including accountants, auditors, financial analysts, managers, bankers, and accounting regulators. It would also be useful for those not wishing to become accounting practitioners but planning to specialize in areas where accounting knowledge would be an advantage (such as bankers and finance professionals).

Course details:

Degree in Economics (*ECO(b)*) and Degree in Economics + Leadership and Governance Program (*ELG*)

Second Semester - Compulsory course.

Instructor: Diem Nguyen (nguyen@unav.es).

The sessions will be held in **Room 03** on **Thursdays (12:00 - 14:00)** and **Room 02** on **Fridays (08:00 - 10:00)**.

Language: **English**

Competencias

Basic Competencies (Management and Economics)

BC2. Students should be able to apply their knowledge to their job or vocation in a professional way. They should be able to prove their general competencies by developing and defending arguments and solving problems within their subject area.

BC5. Students should have developed the learning skills necessary to undertake higher programs of study with greater independence.

General Competencies (Management and Economics)

GC2. Identifying, incorporating and using acquired knowledge in argument, discussion and problem solving as they apply to economics and business.

GC5. Developing the capacity for independent critical thought on matters relevant to economics and business.

Specific Competencies (Economics)

SC14. Understanding the theory and practice of business operations.

Specific Competencies (Management)

SC1. Possessing a thorough knowledge of the General Accounting Plan as well as accounting and finance theory.

SC3. Analyzing a business's real-life accounting and finance situation and making projections about its future.

Programa

Course schedule (tentative):

Financial Accounting II (Spring 2019)

Week	Date	Topic	Readings
1	8-11 Jan.	Introduction + Property, Plant and Equipment	Ch. 10
2	14-18 Jan.	Property, Plant and Equipment	Ch. 11
3	21-25 Jan.	Property, Plant and Equipment	Ch. 10+11
4	29 Jan. - 1 Feb.	Intangible Assets	Ch.12
5	4-8 Feb.	Intangible Assets	Ch. 12
6	11-15 Feb.	Current Liabilities	Ch. 13
7	18-22 Feb.	Revision and Midterm Exam	
8	25 Feb. - 1 Mar.	Non-current Liabilities	Ch. 14
9	5-9 Mar.	Non-current Liabilities	Ch. 14
10	11-15 Mar.	Non-current Liabilities	
11	18-22 Mar.	Investments	Ch. 17
12	25-29 Mar.	Investments + Leases	Ch. 21

13	1-5 Apr.	Leases + Revision
14	8-12 Apr.	Revision
	17 May	Final Exam

Actividades formativas

The course contains a considerable amount of technical material and some can be tricky. The suggested reading and problem assignments for each session will be available on Adi with enough time for preparation.

On the course website on Adi, you will find the course bibliography as well as all course materials, including:

- author presentations of selected book chapters,
- lecture notes,
- practice exercises,
- in-class quizzes
- assignments,
- and other supporting materials.

Do not forget to check the Notice board (*Anuncios*) for the latest updates while the course is running.

In order to make the most of this course, I suggest the following routine:

- Before class: Read the assigned sections in the textbook. Try to solve the case/ problem assigned.
- In class: Pay attention to the lectures, **actively participate** in class discussion, take notes, and ask questions to clarify issues that you find confusing. Please note that cell phones are allowed only for online quizzes and tests.
- After class: Review the topics (your notes, lectures, examples and problems solved in class) and do the online practice exercises (in the Self-assessment folder). If you have difficulties, please come to see me and/or ask your colleagues to help you.

It is very important that you set up and follow a regular study schedule. Learning accounting, similarly to learning any language, requires constant practice for proficiency.

Evaluación

Your course grades will be based on the following components:

- Class participation: 10%
- Mini-tests: 30%
- Midterm exam: 20%
- Final exam (minimum score required: 40%): 40%

Please note that you must achieve a grade of 40% or higher in the final exam for the final exam results to be included in the course grade.

To get a pass, you must: (a) achieve a grade of at least 40% in the final exam; and (b) achieve a grade of at least 50% in the total course grade.

Last but not least, academic integrity is extremely important. Dishonest behaviors will be sanctioned in accordance with the [University Norms on Student Academic Discipline of August 2015](#). A summary is available [here](#).

Curso académico: 2018-19

Introduction

<http://www.unav.edu/asignatura/probstatistics1Beconom/>

Probability and Statistics I B (F. ECONÓMICAS)

Department: Economics

School: Economics and Business Administration

This web site contains information for students of: Economics (bilingual group), Business Administration (bilingual group), and double degrees Economics/Business Administration + Law (bilingual groups).

Year: 2^o

Organization: First academic semester, from September to December

Number of ECTS: 6 cr (150 h)

Type of course: Mandatory ("obligatoria").

Language: English

Schedule:

Economics (bilingual group), Business Administration (bilingual group) 2, Economics (bilingual group)+ Governance

- Tuesday, 10:00-12:00, Room B2
- Thursday, 8:00-10:00, Room B2

Business Administration (bilingual group) 1 and double degrees Economics/Business Administration + Law (bilingual groups)

- Wednesday, 12:00-14:00, Room B1
- Friday, 10:00-12:00, Room B1

Professor: Stella Salvatierra Galiano (ssalvat@unav.es), Office 4060.

Competences

The objective is to offer tools from Probability and Statistical Inference to analyze practical problems in Economics and Management. Students will also analyze real data.

Basic Competencies (Management and Economics)

BC1. Students should demonstrate knowledge and understanding of the subject area based on a general secondary school education. They should have a general level that is well supported by advanced texts, but that also encompasses aspects that suggest knowledge of the leading edge of their field of study.

BC2. Students should be able to apply their knowledge to their job or vocation in a professional way. They should be able to prove their general competencies by developing and defending arguments and solving problems within their subject area.

BC3. Students should be able to gather and interpret relevant data (normally within their field of study) in order to make judgments that encompass consideration of relevant social, scientific and ethical topics.

General Competencies (Management and Economics)

GC3. Mastering the digital, mathematical and technical tools necessary for academic and professional activity in economics and business.

Specific Competencies (Economics)

SC10. Using mathematical reasoning and quantitative tools to analyze the economic context.

SC11. Properly using software applications in quantitative analysis of economic questions.

SC16. Practically applying the knowledge, abilities and skills acquired.

SC17. Knowing how to combine economic reasoning with other disciplines.

SC19. Smartly applying quantitative techniques, suitable software and methodological procedures when working on economic issues.

Specific Competencies (Management)

SC8. Developing case studies on subjects related to economics and business.

SC9. Incorporating computer applications in a business's decision-making processes.

SC10. Incorporating mathematical reasoning and quantitative tools in a business's decision-making processes.

SC17. Smartly applying quantitative techniques, suitable software and methodological processes when conducting work on issues within business administration and management.

Program

1. Introduction to Statistics.

- Decision making under uncertainty: population and sample.
- Stages in decision making: data, descriptive statistics, statistical inference.
- What is Data Science?

2. Probability.

- Random experiment, sample space.
- Properties of a probability.
- The interpretation of "probability"
- Conditional probability

3. Random variables

- Discrete and continuous random variables
- Probabilities for random variables
- Expectation
- Variance
- Cumulative distribution function
- Tchebyshev's Inequality

4. Popular distributions

- Binomial distribution.
- Poisson distribution
- Uniform distribution
- Gaussian distribution.
- Exponential distribution.

5. Bivariate distributions

- Random vectors
- Joint distributions
- Covariance
- Correlation coefficient
- Independence of random variables

6. Data analysis.

- Qualitative and quantitative data.
- Graphics.
- Mean, median and mode.
- Measures of dispersions.
- Quantiles.
- Indexes
- Analysis of two variables: dispersion graphics, covariances and correlation, linear relationship between two variables.
- Conditional probability
- Law of total probability
- Bayes' theorem

7. Introduction to statistical inference

- Population and sample
- Random sample
- Estimators, statistics.
- Sample distributions.
- Point estimation. Maximum likelihood method.
- Confidence intervals

Methodology ("Actividades formativas")

This course includes different activities:

Theoretical classes (36 hours). The emphasis will be in the applications of the concepts and exercises rather than in theorems.

Problem solving classes (8 hours). Students will have to solve exercises every week and will have problem solving classes.

Labs (4 hours) using statistical software

Data analysis Project (20 hours). Students must show proficiency in Descriptive Statistics.

- They will work in teams on a real data analysis project
- Each group will have no more than 5 members. Students will send the team members to Stella Salvatierra (ssalvat@unav.es) by October 1st.
- The description of the project and the database will be released by October 1st.
- Final presentation of the projects: October 29-31. Each group will have to turn in a written report. For the oral presentation, each team will have 7 minutes to speak about the main results. The schedule for the presentations will be available by October 22.

Exams (2 hours each):

- Mid term exam: Tuesday, October 4, in class.
- Final exam: December, date to be announced.

Each student will have approximately 76 hours to solve exercises, attend office hours, read and study.

Assessment

To pass the subject, the final mark must be higher than or equal to 5 AND the mark of the final exam must be higher than or equal to 4. If the mark of the final exam is less than 4, then the final mark will be 4.5

1) In December, the final mark will be a weighted average according to:

- Data analysis project: 20%
- Mid term exam: 30%
- Final exam: 50%. Theoretical and applied questions

2) For those who did not pass in December, there will be a second chance in June according to the following weights:

- Data analysis project: 20%
- Mid term exam: 10%
- Final exam: 70%. Theoretical and applied questions

Office Hours

Introduction

<http://www.unav.edu/asignatura/sociologiaeconom/>

SOCIOLOGY **Economics, Leadership and Governance**

Javier García-Manglano, PhD

ICS, Biblioteca de Humanidades, Office 2050

jgmanglano@unav.es

Class Times

Wednesday 10:00 - 12:00 , aula 05 edificio Amigos

Friday 10:00 - 11:00, seminario 15 edificio Amigos

Office Hours

Only by appointment (email me)

Course description

In this course you will be introduced to the basic concepts and theories of Sociology. You will learn to think sociologically, i.e. to apply a sociological perspective to the world around you, recognizing the crucial links between individuals and the society in which they live. We will survey the main classical sociologists, and apply key sociological concepts to topical issues such as gender, globalization and consumerism, and social institutions (marriage, family, etc).

This course is meant for people in non-Sociology degrees. Thus, particular emphasis will be placed on making the theories and concepts pertinent to the world we live in. Attendance is highly encouraged, and the students are expected to actively participate in class discussions. All students will work on a project during the semester, which will be presented in the final weeks of class

Competences

Edite el contenido aquí

Programa

Part I. Thinking

Part II. Thinking Sociologically

Sociology: origins and definition

The sociologist toolkit

Part III. Classical Sociologists

Karl Marx

Emile Durkheim

Max Weber

Part III. Social Issues

Educational activities

Weekly homework

Should ordinarily take about 1-2 hour of weekly work (readings, videos and/or answering some questions).

Due by midnight on Tuesdays. Bring a paper copy (printed) to class on Wednesday.

Missing 3+ homeworks: <10% in this section.

Group Project

I will offer a series of topics and resources for your group project. Groups will be made up of 3 students each.

If you have an interesting topic (something you care about or something that came up in class), feel free to suggest it to me soon. I will assess whether it can be turned into a class project, and if so give you guidance.

Timeline:

on XXXX, in class: I will present the available project topics, indicating how many people can group for each project. If you have an idea for a project, tell me early.

by XXXX, in class: everyone should be assigned to a project.

by XXXX: each group will send me one-pager with a brief answer to these questions: Why is this topic relevant sociologically? Any relevant questions you're trying to answer? What are the different ideological positions on this issue? What are their arguments? Is there any evidence available (facts, data...) to support any of those positions/arguments? Are you, as a group, more inclined towards one of those ideological positions? Why?

by XXXX: turn in final group paper. 2,500 to 3,000 words in length. You will basically explain the questions posed in your one-pager (see previous point) in more detail, and add conclusions.

XXXX, in class: project presentations.

Assessment

Class participation & discussion: 30 points

- Attending class and participating actively
- Missing 3+ classes: <10% in this section.

Weekly homework: 20 points

- Should ordinarily take about 1-2 hours of weekly work (readings, videos and/or answering some questions).
- I upload homework by midday on Friday (after our Friday class)
- Due by midnight on Tuesday, and bring a printed copy to class.
- Missing 3+ homeworks: <10% in this section.

Group Project: 30 points

- See "Educational Activities"

Final exam: 20 points

- Will confirm date and time... before December exams.
- Needs to be passed (5 out of 10 points) in order to pass the course.

PLAGIARISM

Any use of another person's words or ideas, taken directly or paraphrased, without citing the source is plagiarism; this includes taking material from the Internet without citing the website. If you have any questions about UNAV's policies on plagiarism ask me. If you have any questions on how to properly cite your sources please ask me. Students who are caught plagiarizing will receive a 0 (zero) grade.

Age: Movie: <http://www.youtube.com/watch?v=lZeyYIsGdAA>

Age discrimination: <http://www.forbes.com/sites/lizryan/2014/01/31/the-ugly-truth-about-age-discrimination/>

Fear of Success: <http://fearofsuccess.blogspot.com.es>

A Functionalist perspective on Race and Ethnicity is that Functionalists believe that in terms of understanding ethnic stratification it is possible to achieve a value consensus in wider society regardless of cultural variations between ethnic groups in society. Functionalists believe that Ethnic groups need to become assimilated into mainstream or dominant culture. A key assumption behind this approach is that although societies go through a period of adaption with an influx of immigrant groups that it naturally manages to stabilise itself through absorption. Functionalists theorise that when immigrants become assimilated into the host society they can participate in the benefits of the host society, such as upward social mobility.

Discussion Topic:

Read the articles on the attached links "Are Gypsies Really the Greatest Problem Europe is Facing?" <http://www.smh.com.au/world/are-gypsies-really-the-greatest-problem-europe-is-facing-20131026-2w87d.html>.

Spain's Tolerance of

Gypsies: <http://content.time.com/time/world/article/0,8599,2019316,00.html>

Read the articles thoroughly. After you understand the articles, think how it relates to our discussion on Race Discrimination. The Gypsies argue that they are discriminated against but the other Europeans argue that the Gypsies do not want to integrate into society. What do you think the problem really is? Is it discrimination (by the Europeans) or is there a lack of willingness to integrate (by the Gypsies) completely in European society? What solution to this problem do you propose?

Week 9 - Family, Marriage, Children

Durkheim and Family: Pgs 1-7 [DurkheimPg1 .png](#) [DurkheimPg2.png](#)

[DurkheimPg3.png](#) [Durkheim-4.png](#) [Durkheim-5.png](#) [Durkheim-6.png](#) [Durkheim-7.png](#)

-

Unwed Parenthood: http://www.nbcnews.com/id/39993685/ns/health-womens_health/t/blacks-struggle-percent-unwed-mothers-rate/#.VE7A8ovF-Fc

Marriage & Poverty:

<http://www.heritage.org/research/reports/2012/09/marriage-americas-greatest-weapon-against-child-poverty>

Family: http://www.vatican.va/holy_father/john_paul_ii/letters/documents/hf_jp-ii_let_02021994_families_en.html

When functionalists look at marriage and family, they examine how they are related to other parts of society, especially the ways they contribute to the well-being of society.

Week 10/ Religion & Atheism

Discussion topic: Read the information on the following links. Imagine you are a Functionalist who believes that the purpose of government is to make laws which promote the common good and help the country and society function well. What would a Functionalist say after reading the links you see below? Do the laws create confusion and is that confusion beneficial to society?

<http://georgewbush-whitehouse.archives.gov/news/releases/2004/04/20040401-3.html>

<https://litigation-essentials.lexisnexis.com/webcd/app?action=DocumentDisplay&crawlid=1&dctype=cite&docid=60+S.+Cal.+L.+Rev.+1209&srctype=smi&srcid=3B15&key=a529765c1e6d27676b6a09c4ebf0a071>

<http://law.justia.com/constitution/us/amendment-14/31-abortion.html>

http://www.abort73.com/abortion_facts/us_abortion_law/

Week 11: Population, Demography, Sustainable Development

Population: The Population Puzzle: Boom or Bust <http://www.scribd.com/doc/58320775/Population-Puzzle-Boom-or-Bust-by-Laura-E-Huggins-Hanna-Skandera>

<http://www.juliansimon.com/writings/Norton/> (Read Chapter 2 & 7)

Universidad
de Navarra

<http://www.juliansimon.com/writings/Articles/CATONEW.txt> "Is population a drag on development?"

<http://www.prb.org/Publications/Datasheets/2014/2014-world-population-data-sheet/data-sheet.aspx> (Download 2014 World Population Data Sheet)

Professor Raghuram Rajan - <https://www.youtube.com/watch?v=QIH YiVrT7Ag>

Universidad
de Navarra

Week 13

Sociology of Global Politics, Persuasion & Influence of the Media.

The State, State-Society Relations and

Developing Countries' Economic Performance

<http://www.diva-portal.org/smash/get/diva2:123090/FULLTEXT01.pdf>

The Nairobi speech

Address to the Board of Governors

by Robert S. McNamara, President, World Bank Group

Nairobi, Kenya, September 24, 1973

http://juerg-buergi.ch/Archiv/EntwicklungspolitikA/EntwicklungspolitikA/assets/McNamara_Nairobi_speech.pdf

Possible Exam Questions:

1. With reference to alienation (Marx), anomie (Durkheim), and rationalisation (Weber), what are the similarities and differences in the hopes and fears that the classical theorists had for the future of society?
2. Understand the different sociological perspectives relating to power, types of government, religion and family.
3. Discuss Durkheim's emphasis on "Integration" & "Regulation".
