FACULTAD DE  
FILOSOFIA  
Y LETRAS

Dear colleagues,

The periodical *Cuadernos de Arqueología de la Universidad de Navarra*, from the Department of Ancient History of the University of Navarre (<https://revistas.unav.edu/index.php/cuadernos-de-arqueologia>), Spain, has recently published its last issue, 30-2, corresponding to 2022 and fully dedicated to the medieval settlement in the Iberian peninsula (<https://revistas.unav.edu/index.php/cuadernos-de-arqueologia/issue/view/1481>). **Next issue of this periodical** –number 31, 2023– **is now opened to your contributions** following the instructions of the website created for this purpose (<https://revistas.unav.edu/index.php/cuadernos-de-arqueologia/information/authors>) and with a **peer-review system** of evaluation of the contributions.

Is because of this that **we attach here this “Call for Papers”** with the hope and desire that you’ll find it interesting not only for you but also for sharing this proposal with other scholars and colleagues linked to you.

**The subject of the contributions is free and it’s open to your suggestions taking into account the guidelines of the periodical itself (Archaeology, Epigraphy, Numismatics, Ancient History...).** The **deadline for submitting the articles will expire on 1<sup>st</sup> of May.** It would be fine to get information on your interest by sending us any sort of contributions in order to manage the final index of contributors. You can contact us for this purpose by [jandreup@unav.es](mailto:jandreup@unav.es)

Waiting for your answer and contributions, best wishes,
