

Grow with MEF

Pre-doctoral research scholarships

This year, we will consider again superb candidates with a record of outstanding analytical skills to be part of our Grow with MEF program (GwMEF). GwMEF fellows are granted a 100% reduction in the tuition fee, and are also entitled to one of our TAsip/RAsip with monthly stipend of 800 euros for the entire academic year.

MEF applicants will be considered for the GwMEF scholarship only if they meet ALL the following criteria:

- Hold a BA in Engineering, Mathematics or Physics with GPA over 8.5/10 (or equivalent), or a BA in Economics, Finance or Business with GPA over 8.5/10 (or equivalent). In the latter case, candidates will be considered only if they took undergraduate courses on Calculus, Algebra, Statistics, and Econometrics, and got a high grade (above 85%) in most of these courses, or, alternatively, if they are above the 85 percentile in the quantitative part of the GRE.
- Provide two outstanding letters of recommendations, preferably signed by professors of one of the relevant areas above (mathematics, economics, physics or statistics).

- Proof of completion of (at least) three-year undergraduate studies conducted entirely in English, including all teaching, assessments and examinations. Alternatively, the candidate must have a C1 Advanced (Cambridge) or above 104 points in the TOEFL exam (or equivalent).
- Provide a strong motivating letter on the intrinsic and extrinsic motivations of the candidate (a) to study the MEF at UNAV and (b) to become a GwMEF fellow.

The Board of Management will consider all MEF applicants who meet the criteria above as potential GwMEF candidates, and will award up to five scholarships per academic year. Once all academic records and required documentation have been submitted, the committee will conduct a comprehensive evaluation of each application. Based on this review, the Board will select the candidates who best meet the excellence criteria established for the GwMEF fellowship.

The Board of Management's decisions regarding the allocation of GwMEF fellowships among applicants who satisfy all the criteria are final and irrevocable.
