Welcome to *UNMUN*

Dear Delegates, Chairs, and Academic Community,

It is a true honour to welcome you to the fourteenth edition of the University of Navarra Model United Nations (UNMUN 2027). This year, the conference will take place from February 4th to 6th, 2027, on our beautiful campus in Pamplona, Spain. UNMUN is a conference recognised for its academic excellence and conceived as a space for dialogue, learning, and innovation. It provides our participants with the opportunity to develop their ability to build innovative solutions to some of the most pressing challenges facing our world. Leading this edition is an immense privilege, supported by a team of committed students, professors, and staff from the School of Law whose dedication ensures the highest academic and logistical standards throughout the conference.

UNMUN also offers a space where learning and the creation of valuable connections take on a new dimension. Upon arriving on our campus in Pamplona, you will become part of a true multicultural experience within a university community that brings together students from 125 different countries. Throughout the three days of the conference, we will become global citizens seeking to understand the complex and changing international system. We hope that this experience will not only broaden your perspective, but also leave a lasting mark on your personal and academic development.

Global peace and stability, which characterised most of the second half of the twentieth century and the early years of the twenty-first, now appears to be faltering. Globalisation has connected distant societies across the world, and economic interdependence has strengthened the ties between countries. However, wars and conflicts remain present in the international landscape, with increasingly concerning costs for our planet. Against this backdrop, the overarching theme of our conference seeks to explore areas such as trade, sustainable development, technology, and Artificial Intelligence as spaces for cooperation capable of bringing collective efforts together rather than as grounds for competition.

Welcome to *UNMUN*

Throughout this experience, we expect more than delegate enthusiasm; we invite you to discover the values of our university through dialogue, mutual respect, and service. We encourage you to make the most of this experience, face your fears, question your own ideas, and contribute to enriching dialogue and innovative solutions.

On behalf of the Secretariat and the academic team of UNMUN 2027, we hope that these three intense days of debate become a truly memorable experience. We trust that the conference will awaken your interest in the different challenges of the global agenda and allow you to discover new perspectives, while building valuable connections and new friendships that extend beyond these days.

We look forward to welcoming you this February.

Some testimonies...

"UNMUN meant so much more than just a conference to me. It was such a thrill seeing all of us students from both within our faculty and outside it come together for three days of teamwork. When I saw my delegates with smiles on their faces ready to finish their resolutions first thing in the morning (despite having a late evening the night prior), it gave me a feeling of commitment and community that I can't otherwise describe."

Katrina Galeos
Best Chair Award 2026

UNMUN represents an achievement for me—an achievement by both the Faculty and the students. It's about bringing to life an idea that excites us all. And out of pure love, we give it our all over three days, whether we're debating or organizing. I gave UNMUN my heart and much more.
